

TABLE OF CONTENTS

Chapter		Page
1.	INTRODUCTION	1
1.1	Efficient Market Hypothesis	1
1.2	The Stock Market Anomalies	3
1.3	Literature Review	4
1.4	Objective of Study	9
1.5	Organization of Study	10
2.	THE KUALA LUMPUR STOCK EXCHANGE	11
2.1	Historical Development	11
2.2	The Growth of KLSE	12
2.3	Size of the Market	12
2.4	Types of Securities	13
2.5	Regulatory Developments	13
2.6	KLSE Reforms and Developments	14
2.7	Listing Requirement for KLSE	15
	2.7.1 Main Board	15
	2.7.2 Second Board	17
3.	DATA AND METHODOLOGY	18
3.1	Data	18
	3.1.1 Selection of Data	18
	3.1.2 Source of Data	21
3.2	Research Model of Stock Returns	20
3.3	Statistical Test	20
	3.3.1 Parametric Tests	22
	Oneway ANOVA	22
	Bartlett's Test	23
	Tukey Test	24

3.3.2	Non-Parametric Tests	25
4.	EMPIRICAL RESULTS AND DISCUSSION	27
4.1	Analysis of Data	27
4.2	Daily Mean Return Distribution	27
4.3	Cross Country Comparison	31
4.4	Results of Oneway ANOVA	32
4.5	Results of Tukey TEST	33
4.6	Results of t-TEST	34
4.7	Result of Kruskal-Wallis Test	35
5.	SUMMARY AND CONCLUSION	37
5.1	Restatement of Objective of Study	37
5.2	Conclusion on the Existence of Day of the Week Effect	37
5.3	Conclusion on the Pattern of the Anomaly	38
5.4	Possible Explanations of Day-of-the-Week Effect	39
5.5	Implications of Study Findings	39
	BIBLIOGRAPHY	42
	APPENDICES	45

LIST OF APPENDICES

Appendix		Page
1	Capital Changes Of The 30 Selected Companies	45
