

TABLE OF CONTENTS

CONTENTS		PAGE
CHAPTER 1	INTRODUCTION	1
	1.1. Overview	1
	1.2. Objective Of The Study	3
	1.3. Framework Of The Study	4
CHAPTER 2	LITERATURE REVIEW	5
CHAPTER 3	METHODOLOGY	14
	3.1. Introduction	14
	3.2. Data	14
	3.3. Theoretical Framework	15
	3.4. Data Analysis Techniques	20
	3.4.1. Testing for the presence of unit roots	21
CHAPTER 4	ANALYSES AND RESULTS	25
	4.1. Introduction	25
	4.2. Intra-Sectoral Comparison	26
	4.2.1. Construction sector	26
	4.2.2. Consumer products sector	29
	4.2.3. Finance sector	32
	4.2.4. Hotels sector	35
	4.2.5. Industrial products sector	37
	4.2.6. Mining sector	41
	4.2.7. Plantation sector	43
	4.2.8. Properties sector	46
	4.2.9. Trading/services sector	50
	4.3. Inter-Sectoral Comparison	54
	4.3.1. Average sectoral regression results	54
	4.3.2. The long-run equilibrium profitability	57
	4.3.3. Test of unit root in panel data	59
CHAPTER 5	CONCLUSION AND IMPLICATION	63
	5.1. Introduction	63
	5.2. Main Findings And Implication	65
	5.3. Limitations Of The Study	68
	5.4. Recommendation For Future Research	69
APPENDIX 1		70
REFERENCES		76

LIST OF TABLES

TABLE	TITLE	PAGE
Table 3.1	Number of firms included in each sector	15
Table 4.2.1.1	Rates of return and estimation results for companies in the construction sector	27
Table 4.2.1.2	Number of firms with significant long-run equilibrium profitability for construction sector	28
Table 4.2.2.1	Rates of return and estimation results for companies in the consumer products sector	30
Table 4.2.2.2	Number of firms with significant long-run equilibrium profitability for consumer products sector	31
Table 4.2.3.1	Rates of return and estimation results for companies in the finance sector	33
Table 4.2.3.2	Number of firms with significant long-run equilibrium profitability for finance sector	34
Table 4.2.4.1	Rates of return and estimation results for companies in the hotels sector	36
Table 4.2.4.2	Number of firms with significant long-run equilibrium profitability for hotels sector	36
Table 4.2.5.1	Rates of return and estimation results for companies in the industrial products sector	38
Table 4.2.5.2	Number of firms with significant long-run equilibrium profitability for industrial products sector	40
Table 4.2.6.1	Rates of return and estimation results for companies in the mining sector	42
Table 4.2.6.2	Number of firms with significant long-run equilibrium profitability for mining sector	42
Table 4.2.7.1	Rates of return and estimation results for companies in the plantation sector	44
Table 4.2.7.2	Number of firms with significant long-run equilibrium profitability for plantation sector	45
Table 4.2.8.1	Rates of return and estimation results for companies in the properties sector	47
Table 4.2.8.2	Number of firms with significant long-run equilibrium profitability for properties sector	49
Table 4.2.9.1	Rates of return and estimation results for companies in the trading/services sector	51
Table 4.2.9.2	Number of firms with significant long-run equilibrium profitability for trading/services sector	53
Table 4.3.1.1	Average regression result for the 9 sectors	55
Table 4.3.2.1	Distribution for the significance of YLR	58
Table 4.3.3.1	Test of unit root in panel data	59
Table 4.3.3.2	Summary of results for unit root testing	60
Table 4.3.3.3	Distribution for the range of lambda values	62
