

## TABLE OF CONTENTS

	Page
ABSTRACT	i
ABSTRAK	iii
ACKNOWLEDGEMENT	v
TABLE OF CONTENTS	vi
LIST OF FIGURES	ix
LIST OF TABLES	x
CHAPTER 1 INTRODUCTION	
1.1 Background and rationale of the study	1
1.2 Purpose of the study	6
1.3 Research questions	7
1.4 Syllabus on limit of functions	7
1.5 Operational definitions	9
1.6 Significance of the study	10
1.7 Limitations of the study	10
CHAPTER 2 REVIEW OF LITERATURE	
2.1 Introduction	11
2.2 Misconceptions on the formal definition of limits	11
2.3 Other misconceptions and attributed factors	14
2.4 Research studies on the attainability of the limit	25

	2.5	Views on the attainability of the limit	31
	2.6	Cognitive theory for analysis: Concept Definition and Concept Image	33
CHAPTER	3	METHODOLOGY	
	3.1	Introduction	38
	3.2	Selection of subjects	38
	3.3	Research instruments	40
		3.3.1 Questionnaire on beliefs about limits	40
		3.3.2 Task-based interview	41
	3.4	Content validation of instruments	43
	3.5	Pilot study	44
	3.6	Data collection procedure	44
CHAPTER	4	ANALYSIS AND INTERPRETATIONS	
	4.1	Introduction	47
	4.2	Concept images on limit of functions	48
	4.3	Concept definition on limit of functions	58
	4.4	Concept images on the attainability of the limit	67
	4.5	Concept images on the formal view concerning the the issue on the attainability of the limit	71

	Page
CHAPTER 5	SUMMARY AND CONCLUSIONS
5.1	Introduction 79
5.2	Concept images on limit of functions 80
5.3	Concept definitions on limit of functions 81
5.4	Concept images on the attainability of the limit 82
5.5	Concept images on the formal view concerning the issue on the attainability of the limit. 83
5.6	Implications and suggestions 85
5.7	Recommendations for further research 86
5.8	Conclusion 87
REFERENCES	89
APPENDICES	
A:	Curriculum Content on Limits of Functions 91
B:	Questionnaire on Beliefs about Limits 95
C:	Interview: Attainability of the Limit 100

**LIST OF FIGURES**

	Page	
1.1	Flow chart on components of content for limit of functions	8
2.1	Incorrect definitions on the limit of a function	12
2.2	Graph presented to Sandy to determine the limit of $f(x)$	18
4.1	Student J's response to question one of part A and a graphical illustration of the dynamic view	50
4.2	Student T's graphical illustration on the use of limits to determine the slope of a tangent at a point on a curve	50
4.3a	Student T's graphical illustration of the interval about the point of interest	62
4.3b	Student T's graphical illustration of the interval about the limit	62
4.3c	Student T's graphical illustration of the formal definition	62
4.4	Student J's example of a function that can attain or reach its limit	69
4.5	Researcher's example of a function that is discontinuous at the point of interest	69

**LIST OF TABLES**

Table		
2.1	Percentages of students indicating each statement as true, false, or best on the questionnaire	20
3.1	Criteria for classification of ability levels, actual grades, and number of students in each ability level	39
4.1	The respective initials of students by ability levels	48
4.2	Principal concept images of subjects with different ability levels	49
4.3	Number of students indicating each statement as true, false, or best in part B of the questionnaire	57
4.4	Concept definitions and concept images of students with different ability levels	59
