

TABLE OF CONTENTS

page

1. REVIEW OF LITERATURE

1.1 Introduction	4
1.2 Trends in Export Instability	5
1.3 Causes of Export Instability	7
1.3.1 Export Instability and Commodity Concentration	7
1.3.2 Export Instability and Geographic Concentration	9
1.3.3 Types of Commodity Export	10
1.4 Export Instability and Economic Growth	11
1.5 Methodological Issues	14
1.5.1 Incorrect Model Specification	14
1.5.2 Inadequacy of Cross-Country Studies	17
1.5.3 Concentration Indices	18
1.5.4 The Measurement of Export Instability	19
1.6 Objectives of Study	21
1.7 Limitations of Study	25

2. EXPORT DIVERSIFICATION IN THE MALAYSIAN ECONOMY (1968-91)

2.1 Introduction	27
2.2 Diversification of Exports within the Primary Sector	30
2.2.1 The Agricultural Sector	30
2.2.2 The Mining Sector	39
2.3 Diversification from Primary to Manufacturing Exports	47
2.4 Diversification of Export Markets	61
2.5 Summary	64

3. EXPORT INSTABILITY AND EXPORT CONCENTRATION

3.1 Introduction	65
3.2 Measure of Export Instability	66
3.3 The Model	71
3.3.1 Commodity Concentration	71
3.3.2 Geographic Concentration	75
3.4 The Data	78
3.5 Analysis: Commodity and Geographic Diversification	79
3.6 Conclusion	89

4. SOURCES OF EXPORT INSTABILITY

4.1 Introduction	92
4.2 Contribution of Major Commodity Exports to Export Instability.....	93
4.3 The Association of Export Instability with Price and Quantum Instability	99
4.3.1 Comparison of Price and Export Instability amongst Non-fuel Primary, Fuel and Manufacturing Exports	99
4.3.2 Contribution of Price and Quantum Instability to Export Instability amongst Major Primary Commodities	106
4.4 Contribution of Export Markets to Geographic Instability	111
4.4.1 Contribution of Major Export Markets to Geographic Instability.....	113
4.5 Conclusion	116

5. EXPORT INSTABILITY AND ECONOMIC DEVELOPMENT

5.1 Introduction	119
5.2 Limitations of Study	121
5.3 The Data	123
5.4 Impact of Export Instability on Imports of Capital Goods and Domestic Investment	123
5.4.1 Export Instability-led Imports of Capital Goods Instability Argument	124
5.4.2 Export Instability-led Domestic Investment Instability Argument	130
5.5 Conclusion.....	134

6. CONCLUSION AND POLICY IMPLICATIONS 135

APPENDICES 145

SELECTED BIBLIOGRAPHY 177

LIST OF TABLES

page

Table 2.1	Planted hectareage ('000 hectares) of rubber and oil palm smallholdings by FELDA in Peninsular Malaysia	33
Table 2.2	Production ('000 tonnes) of rubber, palm oil and cocoa beans	33
Table 2.3	Malaysia: Selected agricultural commodities, planted area ('000 hectares)	34
Table 2.4	Rubber: Yield and production	37
Table 2.5	Malaysia: Development allocation for agricultural development (RM million)	40
Table 2.6	Contribution of major mineral exports to total gross exports (percentage).....	43
Table 2.7	Malaysia: Development allocation for the mining sector (RM million)	44
Table 2.8	Malaysia: Contribution of major natural resources (percentage).....	45
Table 2.9	Malaysia: Contribution of major agricultural commodity exports (percentage).....	46
Table 2.10	Malaysia: Development allocation for the manufacturing sector (RM million)	58
Table 2.11	Malaysia: Composition of exports of manufactured goods (percentage).....	60
Table 2.12	Malaysia: External trade by major countries: Contribution of a country's trade to total gross exports (percentage).....	61
Table 2.13	Malaysia: GSP exports (1991)	63
Table 3.1	Commodity: Concentration index and export instability index	80
Table 3.2	Export market: Concentration index and export instability index	82
Table 3.3	Decomposition of Commodity Export Earnings Instability.....	84
Table 3.4	Decomposition of Geographic Export Earnings Instability	85

Table 3.5	Relationship between: (a) export instability and commodity/geographic concentration adjusted for the variation amongst the individual export commodity/export market instability and; (b) export instability and covariances among commodities/export markets	89
Table 4.1	Share of major commodity groups in total export earnings	95
Table 4.2	Contribution of major commodity groups to total export instability	95
Table 4.3	SITC commodity groups which contributed to export instability in about the same proportion as its importance in total export trade	96
Table 4.4	SITC commodity groups which contributed less to the Instability of total export earnings than their proportionate share of total exports	96
Table 4.5	SITC commodity groups which contributed to export instability in excess to their proportionate share of total export earnings	96
Table 4.6	Measures of export instability of non-fuel primary products, fuel and manufactures (1968-1988)	100
Table 4.7	Measures of export instability of major primary commodities (1967-1987)	107
Table 4.8	Instability by export destinations	111
Table 4.9	Share of total exports by major export markets	114
Table 4.10	Contribution of major export markets to total export instability	115
Table 5.1	125
Table 5.2	126
Table 5.3	128
Table 5.4	129
Table 5.5	131

LIST OF CHARTS

	<i>page</i>
Chart 2.1 Average prices of cocoa beans, palm oil and rubber	34
Chart 3.1 Commodity: Concentration and export instability value	81
Chart 3.2 Export market: Concentration and export instability value	83
Chart 4.1 Price indices of non-fuel primary, fuel and manufactured exports	101
Chart 4.2 Export prices relative to import prices for non-fuel primary products, fuel and manufactures	103
Chart 4.3 Malaysia: Terms of trade	104
Chart 4.4 Instability of export values of manufactured goods and non-fuel primary products	105
Chart 4.5 Instability of price indices of manufactured exports and non-fuel primary exports	105
