## Chapter One

Introduction	1
--------------	---

## Chapter Two

### Literature Review

2.1	Origin and Taxonomy of <i>Ganoderma</i> spp.	10
2.2	Pharmacologically Active Components in <i>Ganoderma</i> spp.	14
2.2.1	Polysaccharides	16
2.2.2	Bitter terpenoids	17
2.2.3	Steroids	22
2.2.4	Organic germanium	22
2.2.5	Nucleotides	23
2.2.6	Others	24
2.3	Triterpenoids Isolated from <i>Ganoderma</i> spp.	24
2.4	Analytical Techniques	34

## Chapter Three

### Characterization of Two Locally Grown *Ganoderma* spp.

3.1	Introduction	43
3.2	Materials and Methods	45

3.2.1	Fruiting body collections and descriptions	45
3.2.2	Microscopic studies of the basidiospore	45
3.2.3	Cultural characteristics studies	46
	<i>Isolation of pure culture</i>	46
	<i>Microscopic cultural studies</i>	47
	<i>Enzyme activity during growth</i>	47
	<i>Effect of temperature on growth rate</i>	47
3.3	Results and Discussion	48
3.3.1	Macromorphology of fruit body	48
3.3.2	Microscopic studies of the basidiospore	51
3.3.3	Macroscopic cultural studies	57
3.3.4	Microscopic cultural studies	59
3.3.5	Enzyme activity during growth	61
3.3.6	Temperature studies	64

## **Chapter Four**

### **Extraction and Isolation of Terpenoids**

4.1	Introduction	69
4.2	Materials and Methods	71
4.2.1	Fruit body	71
4.2.2	Extraction of terpenoids	71
4.2.3	Phytochemical tests	71
	<i>Alkaloid test</i>	71
	<i>Terpenoid test</i>	73
	<i>Saponin test</i>	73
	<i>Flavonoid test</i>	73
4.2.4	Chromatographic separation of the crude extracts	73
	<i>Column chromatography of hexane crude extract</i>	76
	<i>Column chromatography of methanol crude extract</i>	76
	<i>Thin layer chromatography (TLC)</i>	77

4.2.5	Instrumentation	78
	<i>Mass spectrometry (MS)</i>	78
	<i>Nuclear magnetic resonance (NMR)</i>	78
4.3	Result and Discussion	79
4.3.1	Phytochemical tests	79
4.3.2	Chemical-guided fractionation	80
	<i>Isolation of Compound 1 (GM 1.1)</i>	85
	<i>Isolation of Compound 2 (GM 2.2)</i>	86
	<i>Isolation of Compound 3 (GM 3.6.5)</i>	86
	<i>Isolation of Compound 4 (GM 4.3)</i>	87
4.3.3	Characterization of isolation compounds	87
	<b>Compound 2</b> (GM 2.2)	87
	<b>Compound 4</b> (GM 4.3)	99
	<b>Compound 3</b> (GM 3.6.5)	112
	<b>Compound 1</b> (GM 1.1)	120

## **Chapter Five**

### **Screening for Antibacterial and Antifungal Activity by Agar Diffusion Method**

5.1	Introduction	132
5.2	Materials and Methods	133
	5.2.1 Test bacteria	133
	5.2.2 Test fungal	134
	5.2.3 Screening for antibacterial and antifungal activity	134
5.3	Results and Discussion	135
	5.3.1 Activity of overall fractions	135
	5.3.2 Activity of isolated compounds	145

## **Chapter Six**

<b>General Discussion &amp; Conclusion</b>	147
--------------------------------------------	-----

<b>Future Work</b>	153
--------------------	-----

<b>Conclusion</b>	155
<b>References</b>	156
<b>Appendix</b>	
Appendix I : Media and Reagents	167
Appendix II : Experimental and Statistical Data of <i>Ganoderma</i> spp.	168
Appendix III : <sup>1</sup> H NMR of All the Fractions Collected from Column Chromatography of Hexane and Methanol Crude Extracts	174
