ACKNOWLEDGEMENTS

I am greatly indebted to Prof. Jomo K. S. of the University of Malaya for suggesting this interesting topic to me as well as for his invaluable advice, support and encouragement. I am solely responsible for any mistakes made in the research paper.

Thanks also go to Dr. Edmund T. Gomez for his invaluable discussions with me. I record my sincere thanks to the librarians of the circulation office in the Main Library of the University of Malaya, whom I frequently visited for their help to use the inter-library loan services.

Last, but not least, I thank Ms Phoon Meng Wai for her patience and accuracy in keying in all the data in this research paper.
