<b>Acknowledgements</b>	i
<b>Executive Summary</b>	ii-v
<b>Introduction</b>	v-x
Background	
Purpose of study	
A Brief Literature Review	
Methodology	
<b>1.0 Company Profile</b>	1-5
1.1 <i>Mission Statement</i>	
1.2 <i>Organisational Structure</i>	
1.3 <i>Manufacturing Facilities</i>	
1.4 <i>Company Performance</i>	
1.5 <i>Product Lines</i>	
1.6 <i>Organisation Culture</i>	
<b>2.0 Environmental Analysis</b>	6-18
2.1 <i>External Environment</i>	
2.1.1 Structural Analysis of the Vacuum Switchgear industry	
2.1.2 Market Trends	
2.2 <i>Internal Environment</i>	
2.2.1 Swot Analysis	
<b>3.0 The Need for Reengineering</b>	19-21
<b>4.0 Business Process Reengineering in ABC</b>	22-47
4.1 <i>Purpose</i>	
4.2 <i>Preparation for Change</i>	
4.3 <i>The Design Stage</i>	
4.4 <i>The Implementation Stage</i>	
4.4.1 Stage 1: Restructuring the Engineering Dept	
4.4.2 Stage 2: Restructuring the Works Dept	
4.5 <i>The Evaluation Stage</i>	

**5.0 Critique and recommendations** 48-60

5.1 *Reviewing the Reengineering Efforts*

5.2 *Problems Arising*

- 5.2.1 Inadequate readiness to change
- 5.2.2 Inadequate communications
- 5.2.3 Insufficient Commitment
- 5.2.4 Delays in Implementing the Reward System

5.3 *Positive Outcome*

- 5.3.1 Focussed Approach
- 5.3.2 Common Material List
- 5.3.3 Focus on Value Engineering
- 5.3.4 Weekly Production Schedule
- 5.3.5 Emphasis on Skills Development

5.4 *Recommendations*

- 5.4.1 Broader Coverage
- 5.4.2 Depth levers –root causes
- 5.4.3 Achieving dynamic stability through information technology
- 5.4.4 Redesigning the value chain

**6.0 Conclusion** 61-64

**References** 65
