

**Table of Content**

Chapter 1	Introduction	1
	Background of study	1
	Purpose of study	5
	Rationale of study	6
	Significance of study	11
	Research questions	14
	Operational definition	15
	Assumptions and limitations	16
Chapter 2	Review Of Related Literature	20
	Computers in teaching and learning Chemistry	21
	Difficult topics in Chemistry	24
	Multimedia in Teaching and Learning	37
	IMM Courseware Programme in Electrochemistry	44
	Considerations of an IMM Programme	48
	Instructional design	50
	Functions of Instructional Design	55

Phases of Instructional Design	56
Instructional Design models	58
Theories of Learning and Instructional Strategies Applied to Computer Courseware	64
Courseware Design	70
Technical Considerations in Developing an IMM programme	74
Preparation of an IMM Courseware programme	81
Development of an IMM Courseware programme	83
Formative Evaluation of IMM Courseware programme	85
Summary	87
Chapter 3	
Methodology	91
Overview of the methodology	91
Preparation of the ELEKTROKIMIA programme	93
Development of the ELEKTROKIMIA programme	100
Formative Evaluation of the ELEKTROKIMIA programme	102
- Pilot testing	103
- Students' evaluation	103
- Observation and interview of students	104
- Achievement test on low-ability students	105
- Teachers' Evaluation	106

	Revision of the ELEKTROKIMIA programme	106
	Mode of presentation	107
	Instrumentation	109
	- Instrument for student	109
	- Instrument for teachers	111
	Development and validation of instrument	113
	Expert review	114
	Summary	115
Chapter 4	Results	118
	The ELEKTROKIMIA programme	119
	Students' evaluation of the ELEKTROKIMIA programme	132
	- Results of the open-ended questions	137
	- Results of the observation and interview of students	139
	Results of the achievement test on low-ability students	143
	Teachers' evaluation of the ELEKTROKIMIA programme	146
	Teachers' and students' evaluation of the ELEKTROKIMIA programme	157
	Revision of the ELEKTROKIMIA programme	160
	Summary	162
