## **ACKNOWLEDGEMENT**

I would like to express my gratitude to Professor Dr. Mansor Md. Isa, my supervisor. Despite his busy schedule as the Dean, he spareD his most valuable time providing assistance, guidance and suggestions to me in carrying out this research project.

I also wish to acknowledge the librarians of the Federation Malaysia of Unit Trust Managers for their kindness and willingness to supply materials and consent to allow me to use the library facilities.

Several persons have contributed to the completion of this research project especially my fellow course-mate and good friend, Allen Ngam for his encouragement and most importantly, his valuable time to edit and comments the several draft copies.

Lastly, and most importantly of all, to my wife Lee Ling, who was deprived of my companionship throughout the course of my study. I wish to express my sincere love and thanks for her understanding, encouragement, moral support and love.
