ASYRAF RIDWAN BIN HJ. ALI; *Konsep Pengurusan Kaunseling Perbandingan ; Suatu Kajian Terhadap Pengamalannya Di Beberapa Institusi Pendidikan Sekitar Kuala Terengganu.* Mini-Disertasi : Bahagian Pengajian Usuluddin, Akademi Pengajian Islam, Universiti Malaya, Kuala Lumpur.

Penyelidikan ini merupakan kajian penyelidik terhadap pemikiran sistem pengurusan Islam khususnya di dalam bidang kaunseling. Ia memuatkan perbandingan antara konsep kaunseling yang dikemukakan oleh sarjana Barat dengan konsep kaunseling menurut perspektif Islam sama ada dari segi teori, kaedah, pendekatan, matlamat dan sebagainya lagi yang diaplikasikan di dalam pengurusan sehari-hari dunia kaunseling. Tidak dapat dinafikan sebahagian besar daripada institusi kaunseling di Malaysia turut mengamalkan konsep pengurusan kaunseling sebagaimana yang digalakkan oleh Islam walaupun sebahagian para kaunselornya mendapat pendedahan pendidikan daripada sarjana Barat. Ini adalah kerana mereka telah mendapat asas agama Islam sejak kecil lagi. Pun begitu, penjelasan yang sebenar mengenai kedua-dua dimensi tersebut perlulah diutarakan bagi memenuhi tuntutan dunia terhadap konsep tersebut. Perbandingan terhadap pengamalan pengurusannya di beberapa institusi pendidikan seperti di kolej, maktab pengurusan, sekolah menengah bukan agama dan juga sekolah agama diketengahkan bagi mengenalpasti keperluan perkembangan institusi kaunseling masa kini. Ini adalah kerana kemunculan teori pemikiran kaunseling berasaskan pandangan Islam sedikit sebanyak telah menimbulkan pelbagai persoalan di kalangan masyarakat awam khususnya kepada pengamal dan pengkaji ilmu psikologi dan kaunseling. Persoalan seperti apakah amalan kaunseling Barat yang diamalkan di kebanyakkannya institusi sekarang ini sesuai ? Adakah ianya salah dari sudut mata Islam ? Bolehkan kaunseling tersebut disesuaikan menurut pandangan Islam dan bagaimana ? Adalah diharapkan agar penemuan ini dapat menjawab segala kekeliruan dan kekaburan tersebut.

ABSTRACT

ASYRAF RIDWAN HJ. ALI; *Comparison Of Counseling Management Concept : A Research On It's Practice In Some Of The Educational Institution Around Kuala Terengganu.* Mini -Disertasi ; Department of Islamic Theology, Academy of Islamic Studies, University of Malaya, Kuala Lumpur.

This Islam an Author research of A Thinking In An Islamic Management System specialized in Counseling. It include a comparison between a concept that being propose by the western intelligentsia and a concept according to the Islamic perception whether in theory, practical, vision, etc., which being use in a daily management of counseling. Most of counseling institution in Malaysia use that counseling management concept as have been encouraged by Islam although the counselor had an exposure from western intelligentsia. This Islam because of the Islamic education that has being teach to these counselor from their early age. Nevertheless, the real explanation of these two dimension has to be done so that it will satisfying all the need of the world today.

A comparison of it's management in some of the educational institution such as in college, teaching college, secondary school, including the Sekolah Menengah Agama, also has to be considered so that need of the counseling institution's improvement nowadays can be identified. The arising of the counseling that base on the Islamic perception has at least giving the civilian to come up with a lot of question in their mind especially among the psychologist and counselor. A question such as, Islam the western's concept in counseling that still being practice in most of the counseling institution applicable ? Does it wrong from Islamic perspective ? Can it be appropriate according to the Islamic perspective. And how it can be done ? With the findings of this research, it Islam hope to answer the questions posed above.
