Chapter One: Introduction	
1.1	1
1.2	2
1.3	2
1.4	3
1.5	3
Chapter Two: The Malaysian Economy	
2.1	6
2.1.1	6
2.1.2	8
2.1.3	9
2.1.4	12
2.1.5	14
2.1.6	16
2.1.7	18
2.1.8	19
2.1.9	21

Chapter Three: Literature Review

3.1	Introduction	24
3.1.1	Theory	24
3.1.2	Analysing Fiscal Policy's Impact on Exchange Rates in the Mundell-Fleming Model	25
3.1.3	Real Interest rate differential Model (RID)	29
3.1.4	Budget Deficit, Exchange Rates and the Current Account: The United States Evidence	32
3.2	Long Term Implications	36
(A)	Anti-inflation Stance	36
(B)	Size of the Current Account Deficit	37
3.3	Current Account Imbalance	37
3.3.1	Private Investments	39
3.3.2	Private Consumption	40
3.4	A Generalized Uncovered Interest Rate Parity Model – the United States Evidence	41
3.4.1	Productivity Growth	41
3.4.2	Budget Balances	42
3.4.3	Real Price of Oil	44
3.4.4	Empirical evidence of the Generalized Uncovered Interest Parity Model	46
3.5	Real Exchange rate, its determinants and significance to the Macro-Economy – The Malaysia Evidence	47

Chapter Four: Methodology

4.1	Introduction	53
	4.1.1 Unit Root Tests	53
4.2	Testing for Cointegration: The Engle-Granger Method	57

Chapter Five: Empirical Evidence

5.1	Introduction	62
	5.1.1 Empirical Analysis Using variables in nominal terms	62
5.2.	Unit Root Test	63
5.3	Cointegration Test – The Engle-Granger Approach	64
	5.3.1 Government Spending and Real Exchange Rate	65
	5.3.2 Government Revenue and Real Exchange Rate	69
	5.3.3 Exports and Real Exchange Rate	72
	5.3.4 Imports and Real Exchange Rate	75
5.4	Empirical Analysis using variables in real terms	78
	5.4.1 Unit Root Test	78
	5.4.2 Real Government spending and Real Exchange Rate	79
	5.4.3 Real government revenue and Real Exchange Rate	81
	5.4.4 Real Exports and Real Exchange Rate	84
	5.4.5 Real Imports and Real Exchange Rate	86
5.5	Implication of the Empirical Evidence	88
	5.5.1. Government spending and Real Exchange Rate	88
	5.5.2 Government revenue and Real Exchange Rate	89
	5.5.3 Exports and Real Exchange Rate	90
	5.5.4 Imports and Real Exchange Rate	91
5.6	Conclusion	93

Chapter Six: The Crisis

6.1	Introduction	95
6.1.1	Types of Crisis	95
6.1.2	Currency Crisis	97
6.1.3	Currency Crisis and Contagion	99
6.2	Causes of the Crisis	100
(A)	Domestic Factors	101
(B)	External Factors	103
6.2.1	The IMF approach	104
6.2.2	Criticism of the IMF approach	106
6.3	Alternative approach in tackling the Crisis	108
6.3.1	Expand Liquidity	109
6.3.2	Restructure Debts	110
6.3.3	Recapitalise Banks	111
6.3.4	Readjust Macro – Economic Policies	112
6.4	Implications from the Crisis	113
6.4.1	Choice of Exchange Rate Policy	113
6.4.2	Fixed Exchange Rate	116
6.4.3	Austerity Policies	118
6.5	The Malaysian Economy – Causes for Concern	119
6.5.1	Economic Growth Above Potential Output	119
6.5.2	Rising Current Account Deficit	120
6.5.3	Excessive Credit Expansion to the Non Tradable Sectors	120
6.5.4	The Real Exchange Rate	121

Page

6.6	Trigger Effect	122
6.7	Policy Response	124
6.7.1	Recovery of the Banking Sector	124
6.7.2	Monetary Policy	127
6.7.3	Ensuring Healthy Credit Growth	128
6.7.4	Fiscal Policy	130
6.7.5	Strengthening The Balance of Payments	130
6.8	Conclusion	132

Chapter Seven: Conclusion

7.1	Introduction	134
7.1.1	Policy Mix	134
7.1.2	Capital Movement restrictions and Currency Speculation	136
7.1.3	The Nominal Anchor Approach and the Real Targets Approach of Exchange Rate	138
7.1.4	Conclusion	140

Bibliography	143
