List of Content	iv
List of Map	ix
List of Figure	x
List of Table	xii
List of Plate	xiv

## CHAPTER ONE : INTRODUCTION

1.1	Introduction to the Study .....	1
1.2	Introduction to Infiltration .....	1
1.3	Significance of Infiltration .....	2
1.4	Statement of Problem .....	6
1.5	Aim of the Study .....	9
1.6	Scope and Limit of the Study .....	10
1.7	The Process of the Infiltration ....	11
1.8	Factors Controlling Infiltration ...	14
1.8.1	Rainfall Intensity .....	14
1.8.2	Vegetation Cover .....	15
1.8.3	Slope .....	16
1.8.4	Soil Moisture Content .....	16
1.8.5	Soil and the Biotic Factor ....	17
1.9	Infiltration Behaviour .....	17
1.10	Conclusion .....	22

## CHAPTER TWO : SURVEY OF LITERATURE

2.1	Introduction .....	23
2.2	Infiltration Equations and Mechanics of Infiltration .....	23
2.3	Practical Methods of Measuring Infiltration .....	27
2.4	Infiltration Measurements in the Field .....	35
2.5	Infiltration Rate in Relation to Soil Physical and Biological Properties .....	43
2.6	Conclusion .....	47

## CHAPTER THREE : THE PHYSICAL ENVIRONMENT OF THE STUDY AREA

3.1	Introduction .....	49
3.2	Location of the Study Areas .....	50
3.3	The Climate of the Study Areas .....	50
3.3.1	Rainfall .....	54
3.3.2	Temperature .....	56
3.3.3	Relative Humidity .....	56
3.4	Geology of the Study Areas .....	60
3.5	Soils of the Study Areas .....	60
3.5.1	The Serdang Series .....	63
3.5.2	The Munchong Series .....	64
3.5.3	The Kedah Series .....	65
3.6	Soil Texture of the Study Areas .....	66
3.7	Vegetation of the Study Areas .....	68
3.7.1	Vegetation Under Rubber and Oil Palm (20 year-old) .....	71

3.7.2	Vegetation Under Rubber and Oil Palm (seven year-old) .....	71
3.7.3	Vegetation Under Bare Soil Condition .....	72
3.7.4	Vegetation Under Forest Condition .....	73
3.8	Surface Configuration of the Study Areas .....	73
3.9	Drainage Pattern of the Study Areas ....	74
3.10	Conclusion .....	74

#### CHAPTER FOUR : METHODOLOGY

4.1	Introduction .....	78
4.2	Determination of Infiltration Rates ....	78
4.2.1	Measurement of Infiltration Rates .....	79
4.2.2	Construction of the Rainfall Simulator .....	80
4.2.3	Assemblage and General Procedure ..	82
4.2.4	Rainfall Simulation Procedure and Determination of Infiltration Rates .....	87
4.2.5	The Advantages of Using Rainfall Simulator .....	90
4.2.6	Water Sources for Simulation .....	94
4.3	Determination of Soil Bulk Density .....	95
4.4	Determination of Soil Total Pore Space .....	98
4.5	Determination of Soil Organic Matter Content .....	100
4.6	Determination of Soil Aggregate Stability .....	101

4.7	Determination of Particle Size Distribution .....	101
4.8	Conclusion .....	102

## CHAPTER FIVE : RESULTS

5.1	Soil Bulk Density .....	104
5.2	Soil Total Pore Space .....	104
5.3	Soil Organic Matter Content .....	105
5.4	Soil Aggregate Stability Index .....	105
5.5	Infiltration Rates of the Various Landuses .....	106
5.6	Conclusion .....	106

## CHAPTER SIX : ANALYSIS OF RESULTS

6.1	Introduction .....	107
6.2	Analysis of Data .....	108
6.3	Effect of Soil Bulk Density on Infiltration Rate .....	109
6.4	Effect of Total Pore Space on Infiltration Rate .....	112
6.5	Effect of Organic Matter Content on Infiltration Rate .....	115
6.6	Soil Stability Effect on Infiltration Rate .....	117
6.7	Conclusion .....	120

CHAPTER SEVEN : DISCUSSION OF RESULTS

7.1	Introduction .....	121
7.2	Infiltration Rates of Soils of the Various Landuses .....	121
7.3	Infiltration Behaviour Revealed in this Study .....	125
7.4	Conclusion .....	137

CHAPTER EIGHT : CONCLUSION

Conclusion .....	139
