| CONTENTS                             | iv  |
| <b>CHAPTER 1: INTRODUCTION</b>       |   |
| 1.1                                  | <b>CO<sub>2</sub> Laser Cutting Background and Applications</b> 1 |
| 1.2                                  | <b>Brief Review of CO<sub>2</sub> Laser Machining Process</b> 1   |
| 1.3                                  | <b>Objectives of the study</b> 3                                  |
| <b>CHAPTER 2: LITERATURES REVIEW</b> |   |
| 2.1                                  | <b>Basic Principle of CO<sub>2</sub> Laser</b> 4                  |
| 2.1.1                                | The CO <sub>2</sub> Molecule Vibrational Mode 4                   |
| 2.1.2                                | Excitation of the CO <sub>2</sub> Molecule 6                      |
| 2.1.3                                | The Role of Nitrogen in Lasing 7                                  |
| 2.1.4                                | The Role of Helium in Lasing 8                                    |
| 2.2                                  | <b>Laser Cutting Parameters</b> 9                                 |
| 2.2.1                                | Laser Beam Properties 9   |
| 2.2.2                                | Material Properties 16  |
| 2.3                                  | <b>Laser Cutting Mechanism</b> 18                                 |
| 2.3.1                                | Laser-Material Interaction 18                                     |
| 2.3.2                                | Heat Conduction 20  |
| 2.3.3                                | Moving Heat Source 23   |
| 2.3.4                                | Oxidation 24  |
| 2.3.5                                | Striation Formation 25  |
| 2.4                                  | <b>Sharp Curvature</b> 27   |
| 2.4.1                                | Heat Transfer in Curved Trajectories 27                           |
| 2.4.2                                | Classification of Corner Types 31                                 |
| 2.4.3                                | Sharp Curvature Cutting Techniques 32                             |

## CHAPTER 3: EXPERIMENTAL METHODOLOGY

|            |  |    |
|------------|--|----|
| <b>3.1</b> | <b>The CO<sub>2</sub> Laser System</b>   | 34 |
| 3.1.1      | Power Supply System                      | 34 |
| 3.1.2      | Laser Resonator                          | 37 |
| 3.1.3      | Vacuum and Recirculation System          | 40 |
| 3.1.4      | Gas Cooling System                       | 42 |
| <b>3.2</b> | <b>Beam Delivery System</b>              | 43 |
| <b>3.3</b> | <b>The Motion Control System</b>         | 44 |
| 3.3.1      | The XY-Table                             | 44 |
| 3.3.2      | The Controller Card                      | 45 |
| 3.3.3      | Servo Motor Driver                       | 47 |
| 3.3.4      | Motor Lead Screw and Encoder             | 48 |
| <b>3.4</b> | <b>Development of 2D CAD/CAM Program</b> | 49 |
| 3.4.1      | Visual Basic 6 Programming Language      | 49 |
| 3.4.2      | MINT Programming Language                | 54 |
| 3.4.3      | MINT Interface Library                   | 61 |

## CHAPTER 4: RESULTS AND DISCUSSIONS

|            |  |    |
|------------|--|----|
| <b>4.1</b> | <b>CO<sub>2</sub> Laser Cutting Program</b>        | 66 |
| 4.1.1      | XY Motion Form                                     | 66 |
| 4.1.2      | Database Entry                                     | 67 |
| 4.1.3      | System Setup                                       | 68 |
| 4.1.4      | System Status                                      | 69 |
| 4.1.5      | Drawing Area                                       | 70 |
| <b>4.2</b> | <b>Rounded Corner Method</b>                       | 71 |
| 4.2.1      | Geometric Analysis                                 | 71 |
| 4.2.2      | Constructing a Visual Basic Corner Fillet Function | 74 |
| 4.2.3      | Corner Fillet Function                             | 75 |
| 4.2.4      | Corner of Any Size                                 | 75 |
| 4.2.5      | Axes Rotation                                      | 77 |
| 4.2.6      | Corner Fillet Function Source Code                 | 77 |
| 4.2.7      | CO <sub>2</sub> Laser Cutting Program Flow Chart   | 78 |
| 4.2.8      | Cutting Results and Analysis                       | 79 |
| 4.2.9      | Discussions  | 88 |

**CHAPTER 5: CONCLUSION**

|            |                                      |           |
