## ACKNOWLEDGEMENTS

I would like to express my deepest gratitude to Associate Professor Dr. Noel F. Thomas, Professor Dr. Khalijah Awang and Professor Dr. J.-F. F. Weber (Universiti Teknologi Mara, UiTM) for their supervision, guidance and patience throughout the course of this study. I also would like to express my appreciation to Dr. Patrick Trouillas for his help and guidance in performing some of my PhD work on computational calculations during my stay (Nov 2008-Feb 2009) in Limoges, France. Also thanking Professor Stéphane Quideau and Dr. Denis Deffieux for their assistance in performing part of my PhD work on electrochemical oxidations during my stay (Dec 2006-Feb 2007) in Bordeaux, France. I also wish to extend my thanks to Mr. C.G. Lim (SIRIM Berhad), Miss Parameshvari Kanniah, Miss Subashini Panjasaram and all my friends for their advice and support. I am grateful to my Alma Mater, University of Malaya for the support and UiTM (Faculty of Pharmacy, Shah Alam) as most of my PhD work was carried out there.
