CHAPTER 1: INTRODUCTION

| | |
|--------------------------------------|---|
| 1.1 Background | 1 |
| 1.2 Purpose of the study | 3 |
| 1.3 Research questions | 4 |
| 1.4 Significance of the study | 5 |

CHAPTER 2 : REVIEW OF LITERATURE

| | |
|---|----|
| 2.1 Theories and strategies | 7 |
| 2.1.1 A cognitive approach to second language learning | 7 |
| 2.1.2 McLaughlin's attention-processing model | 9 |
| 2.1.3 Bialystok's analysis/automaticity model | 12 |
| 2.1.4 Anderson's adaptive control of thought (ACT) | 15 |
| 2.1.4.1 Language comprehension | 17 |
| 2.1.4.2 Language production | 18 |
| 2.2 Auto-strategic language processing model | 20 |
| 2.2.1 Definitions: Strategies, styles, processes and skills | 21 |
| 2.2.1.1 Defining strategies | 21 |
| 2.2.1.2 A proposed disposition of strategies, styles, processes, and skills | 22 |
| 2.2.2 Underlying assumptions | 23 |
| 2.2.3 Description of model | 24 |
| 2.2.3.1 Automatic language processing | 25 |
| 2.2.3.2 Strategic language processing | 27 |

| | | |
|--------------|---|----|
| 2.2.4 | Classification of strategies | 28 |
| 2.2.4.1 | Rationale for the proposed classifications | 29 |
| 2.2.4.2 | Description of classification | 31 |
| 2.2.5 | Advantages and suggested improvements | 34 |
| 2.3 | The inter-relationships between the processes and strategies for cloze completion, reading, problem solving, and language production | 35 |
| 2.3.1 | Definitions and characteristics of cloze | 36 |
| 2.3.1.1 | Rational cloze without options | 38 |
| 2.3.1.2 | Rational cloze with options | 41 |
| 2.3.1.3 | Relationship between rational cloze with options and without options | 43 |
| 2.3.2 | Reading process and strategies | 45 |
| 2.3.2.1 | Classifying reading strategies | 50 |
| 2.3.2.2 | The relationship between reading and cloze | 53 |
| 2.3.3 | Problem solving process and strategies | 57 |
| 2.3.4 | Language production process and strategies | 62 |
| 2.3.5 | Cloze completion process and strategies | 65 |
| 2.3.5.1 | Cloze completion process | 66 |
| 2.3.5.2 | Cloze completion strategies | 67 |
| 2.4 | Validity and reliability of think-aloud protocols as research data | 77 |
| 2.4.1 | Internal validity | 79 |
| 2.4.2 | External validity | 85 |
| 2.4.3 | Reliability | 87 |
| 2.4.4 | Think-aloud protocols: State of the art | 88 |

CHAPTER 3: RESEARCH METHODOLOGY

| | | |
|------------|---|-----|
| 3.1 | Methods in research | 91 |
| 3.2 | The sample | 92 |
| 3.3 | Methodology | 94 |
| 3.3.1 | Think-aloud protocol | 95 |
| 3.3.2 | Stimulated recall | 97 |
| 3.3.3 | Interview | 99 |
| 3.4 | Data collection | 101 |
| 3.5 | Instrumentation | 115 |
| 3.5.1 | Tasks for training in think-aloud technique | 116 |
| 3.5.2 | Cloze texts without options | 117 |
| 3.5.2.1 | Deletions in cloze text without options for the study | 120 |
| 3.5.2.2 | Deletions in trial cloze text without options | 120 |
| 3.5.3 | Cloze texts with options | 121 |
| 3.5.3.1 | Deletions in cloze texts with options for the study | 123 |

| | | |
|---------|--|-----|
| 3.5.3.2 | Deletions in trial cloze text with options | 123 |
| 3.5.4 | Interview questions for language instructors | 124 |
| 3.5.5 | Questions for stimulated recall | 126 |

CHAPTER 4 : RESULTS

| | | |
|------------|---|-----|
| 4.1 | Types of data | 127 |
| 4.2 | Procedures in processing and analysing data | 127 |
| 4.2.1 | Think-aloud protocol and stimulus recall | 128 |
| 4.2.2 | Interview with English language instructors | 130 |
| 4.3 | Answering research questions | 131 |
| 4.3.1 | Research question 1 | 131 |
| 4.3.2 | Research question 2 | 135 |
| 4.3.2.1 | Strategies employed in solving cloze with options | 136 |
| 4.3.2.2 | Strategies employed in solving cloze without options | 149 |
| 4.3.3 | Research question 3 | 163 |
| 4.3.3.1 | Comparison between strategies utilised for content word items and function word items for cloze with options | 164 |
| 4.3.3.2 | Comparison between strategies utilised for content word items and function word items for cloze without options | 172 |
| 4.3.3.3 | Comparison between strategies utilised for cloze with options and without options for content word items | 177 |
| 4.3.3.3 | Comparison between strategies utilised for cloze with options and without options for function word items | 180 |
| 4.3.4 | Research question 4 | 184 |
| 4.3.4.1 | Data obtained from interview with English language instructors | 184 |
| 4.3.4.2 | Comparison between strategies advocated by instructors and strategies utilised by subjects | 185 |
| 4.3.4.3 | The mismatch between strategies advocated by instructors and strategies utilised by subjects | 190 |

CHAPTER 5 : CONCLUSIONS AND IMPLICATIONS

| | | |
|------------|------------------------------|-----|
| 5.1 | Conclusions | 192 |
| 5.2 | Implications | 194 |
| 5.2.1 | Material writers | 195 |
| 5.2.2 | Test designers | 196 |
| 5.2.3 | English language instructors | 197 |
| 5.2.4 | Syllabus designers | 198 |
| 5.3 | Limitations | 199 |
| 5.4 | Further research | 199 |

| | | |
|---------------------|---|-----|
| Appendix A | : Definitions, functions, and characteristics of strategies | 203 |
| Appendix B | : Defining styles, processes, and skills | 207 |
| Appendix C | : Components of Auto-Strategic Language Processing Model | 210 |
| Appendix D | : Strategic Language Processing Strategies | 213 |
| Appendix E | : Trial cloze without options and key | 234 |
| Appendix F | : Cloze without options and key | 235 |
| Appendix G | : Trial cloze with options and key | 237 |
| Appendix H | : Cloze with options and key | 239 |
| Appendix I | : Types of deletions | 242 |
| Appendix J | : Interview questions for English language instructors to Prepare for the interview | 243 |
| Appendix K | : Legend for appendices K (A) and K (B) | 244 |
| Appendix K(A) | : Analysis of strategies for cloze with options : Subject D | 245 |
| Appendix K(B) | : Analysis of strategies for cloze without options : Subject B | 254 |
| Appendix L | : Frequency of automatic language processing and strategic language processing strategies | 262 |
| Appendix M | : Strategies in solving content words in cloze with options and cloze without options | 263 |
| Appendix N | : Frequency of strategies for cloze with options and cloze without options | 267 |
| Appendix O | : Comparing the strategies in solving content words in cloze with options and cloze without options | 269 |
| Appendix P | : Strategies taught for cloze with options and cloze without options | 278 |
| Appendix Q | : Frequency of strategies employed by subjects | 280 |
| Bibliography | | 282 |

LIST OF FIGURES

| | | |
|--------------|---|-----|
| Figure 2.1 | : Auto-Strategic Language Processing Model | 210 |
| Figure 2.1.1 | : Automatic language processing | 211 |
| Figure 2.1.2 | : Strategic language processing | 212 |
| Figure 4.1 | : Frequency of strategies for cloze with options | 267 |
| Figure 4.2 | : Frequency of strategies for cloze without options | 268 |

LIST OF TABLES

| | | |
|-------------|---|-----|
| Table 2.1 | : Strategies : Definitions, functions, and characteristics | 203 |
| Table 2.2 | : Styles, processes, and skills | 207 |
| Table 2.3 | : Category I : Preparatory strategies | 213 |
| Table 2.4 | : Category V : Retrospective strategies | 214 |
| Table 2.5 | : Category VI : Resourcing strategies | 215 |
| Table 2.6 | : Category II : Core strategies, Class 1 : Participatory strategies | 219 |
| Table 2.6.1 | : Category II : Core strategies, Class 2 : Regulatory strategies | 223 |
| Table 2.6.2 | : Category II : Core strategies, Class 3 : Non-Participatory strategies | 224 |
| Table 2.7 | : Category III : Input oriented strategies, Class 1 : Integrative strategies | 225 |
| Table 2.7.1 | : Category III : Input oriented strategies, Class 2 : Regulatory strategies | 228 |
| Table 2.8 | : Category IV : Output oriented strategies, Class 1 : Productive strategies | 229 |
| Table 2.8.1 | : Category IV : Output oriented strategies, Class 2 : Regulatory strategies | 233 |
| Table 3.1 | : Deletion types for cloze with options and cloze without options | 242 |

| | | |
|------------|---|-----|
| Table 4.1 | : Frequency of automatic language processing | 262 |
| Table 4.2 | : Frequency range description | 262 |
| Table 4.3 | : Strategies in solving content word deletions in cloze with options | 263 |
| Table 4.4 | : Strategies in solving function word deletions in cloze with options | 264 |
| Table 4.5 | : Strategies in solving content word deletions in cloze without options | 265 |
| Table 4.6 | : Strategies in solving function word deletions in cloze without options | 266 |
| Table 4.7 | : Similarities in strategies between content word deletions and function word deletions for cloze with options | 269 |
| Table 4.8 | : Differences in strategies between content word deletions and function word deletions for cloze with options | 270 |
| Table 4.9 | : Similarities in strategies between content word deletions and function word deletions for cloze without options | 271 |
| Table 4.10 | : Differences in strategies between content word deletions and function word deletions for cloze without options | 272 |
| Table 4.11 | : Similarities in strategies between cloze with option and cloze without options for content word deletions | 273 |
| Table 4.12 | : Differences in strategies between cloze with option and cloze without options for content word deletions | 274 |
| Table 4.13 | : Similarities in strategies between cloze with option and cloze without options for function word deletions | 275 |
| Table 4.14 | : Difference in strategies between cloze with option and cloze without options for function word deletions | 276 |
| Table 4.15 | : Comparison of factors influencing choice of strategies | 277 |
| Table 4.16 | : Strategies taught for cloze with options | 278 |
| Table 4.17 | : Strategies taught for cloze without options | 279 |
| Table 4.18 | : Frequency of text oriented strategies employed by subjects | 280 |

| | | |
|------------|--|-----|
| Table 4.19 | : Frequency of language oriented strategies employed by subjects | 280 |
| Table 4.20 | : Frequency of correct and wrong responses for language oriented strategies | 281 |
| Table 4.21 | : Frequency of task oriented strategies employed by subjects | 281 |
