

ACKNOWLEDGEMENT

First and foremost, I would like to thank to my thesis supervisor of this project paper, Dr Anna Azriati Che Azmi for her valuable guidance, advice, encouragement and understanding throughout the process of completing my project paper. She inspired me greatly to work in this project paper within very limited time. Her willingness to motivate me contributed tremendously to this study. I also would like to thank her for showing some example that related to the topic. Her positive attitude and support have been greatly appreciated.

In addition, I would also like to thank the Inland Revenue Board of Malaysia (IRBM) which provides very valuable assistance and information as guidance of this project paper. Especially to Mr Azizol Ahmad from the Revenue Collection Department, Jalan Duta Branch, Mr Mohd Khairul Huozaine Mohd Zaki from the Customer Service Unit, Cheras Branch and Mr Sheik Mazrul Omar from the Shah Alam Branch.

Finally, an honorable mention goes to my families and friends for their understandings and supports on me in completing this project paper. Without their help and support throughout the years, I do not think study and full-time work would have been possible.
