Acknowledgment

I would like to forward my sincerest thanks and appreciation to my supervisor, Dr. Lang Chin Ying for her kind patience and guidance. Without her valuable guidance and support, this research project would not be able to complete in schedule.

I would also like to thank the respondents in allocating time from their tight schedule for the personal interviews. Also, thanks to Cik Khadijah Abdullah of Federation of Public Listed Companies (FPLC) and Malaysian Institute of Corporate Governance (MICG), for her kindness to allow me to access to her collections on materials related to this research and her generosity to share her knowledge.

To my MBA friends, especially Sew Hong, thanks for their moral support.

With love and regards to my parents and family members, thank you for their considerations, understanding and support throughout the whole duration of the MBA course.

Again, to the above mentioned with thanks and sincere appreciation!

Abstract

In view of limited published studies about the board room practices in local corporations, this exploratory research is proposed to obtain some qualitative data of the local corporate governance structure.

A total of ten board members from the local public listed companies were interviewed on their experience as board members. They were also being approached on personal opinions with relevant to some corporate governance issues.

Western literatures and Companies Act 1965 were used as main references to lay the basic roles, responsibilities and controls of corporate board.

The research findings showed there are still lacking of corporate governance in our corporations. Some further studies on the some topics are proposed.
