ACKNOWLEDGEMENTS

Throughout the preparation for this dissertation, many persons have been very helpful to me, particularly in the areas of data gathering and library research activities. I would like to take this opportunity to thank them for their kind assistance and support, without which, the research process will not be as interesting.

I am also deeply indebted to my dissertation supervisor, Dr. G. Sivalingam, who is both knowledgeable and sensible. I would like to express my gratitude for his valuable opinions and positive attitude, and most of all, the sincerity in seeing through the completion of this dissertation. (Dr. G. Sivalingam is currently the head of Department of Finance and Banking, Faculty of Business and Accountancy).

Finally, special thanks to my family and friends for their encouragement throughout this period.

May God bless you all.
ABSTRACT

This empirical research investigates the holiday effect in the Kuala Lumpur Stock Exchange (KLSE) using three daily stock indices: Kuala Lumpur Stock Exchange Composite Index (KLSE CI), Exchange Main Board All-Share Index (KLSE EMI), and Kuala Lumpur Stock Exchange Second Board Index (KLSE SBI) over the period January 1990 to June 2001. The results show abnormally high pre-holiday returns which predominate only on the single trading day immediately prior to holidays and the pre-holiday fraction of positive return is found significantly higher for all three indices. On the other hand, the post-holiday returns are higher than normal trading days but the results are insignificant. In an examination of the individual holiday, significant individual holiday effects are found on pre-New Year's Day, post-Chinese New Year, and post-Kongsi Raya. The KLSE SBI exhibits a peculiar Chinese New Year effect. The results also show that the holiday effect is independent of other calendar anomalies. This study also shows that the patterns of pre-holiday return vary according to the level of economic activity whereby the magnitude of pre-holiday strength is reported largest during expansionary period and virtually disappears during recession period before it is present again during recovery period. Finally, the study shows that large capitalisation stocks tend to display higher pre-holiday returns during expansionary period while small-capitalisation stocks during recovery period.

Abstract ii
Table of Contents iii - v
List of Tables vi
List of Figures vii

CHAPTER 1 : INTRODUCTION 1

1.1 SCOPE OF THE STUDY 2
1.2 ORGANISATION OF THE STUDY 3
1.3 OVERVIEW OF THE EFFICIENT MARKET HYPOTHESIS (EMH) 4
1.4 OVERVIEW OF THE STOCK MARKET ANOMALIES 6
   1.4.1 Day-of-the-Week Effect 6
   1.4.2 Turn-of-the-Month Effect 8
   1.4.3 January Effect 9
   1.4.4 Firm Size Effect 9
1.5 OVERVIEW OF THE MALAYSIAN ECONOMY 10
1.6 OBJECTIVES OF THE STUDY 14
1.7 SIGNIFICANCE OF THE STUDY 14
1.8 STATEMENT OF HYPOTHESES 15
CHAPTER 2 : LITERATURE REVIEW

2.1 RESEARCH IN THE U.S. AND OTHER FOREIGN STOCK MARKETS 16

2.2 RESEARCH IN THE ASIAN STOCK MARKETS 23

CHAPTER 3 : RESEARCH DATA AND METHODOLOGY 25

3.1 NATURE OF SAMPLE DATA 25

3.1.1 Daily Index Return 25

3.1.2 Kuala Lumpur Stock Exchange Composite Index (KLSE CI) 26

3.1.3 Exchange Main Board All-Share Index (KLSE EMI) 27

3.1.4 Kuala Lumpur Stock Exchange Second Board Index (KLSE SBI) 28

3.1.5 Holiday 33

3.2 RESEARCH METHODOLOGY 36

3.2.1 Means and Variances on Pre- and Post-Holidays 36

3.2.2 Stock Returns On Days Around Holidays 38

3.2.3 Holiday Effect by Individual Holiday 39

3.2.4 Pre-Holiday Returns Are Not A Manifestation Of Other Calendar Anomalies 41

3.2.5 Relationship Between Business Cycles and Pre-Holiday Effect for Different Firm Sizes 45
CHAPTER 4 : EMPIRICAL RESULTS AND ANALYSIS 47

4.1 MEANS AND VARIANCES ON PRE- AND POST-HOLIDAYS 47

4.2 STOCK RETURNS ON DAYS AROUND HOLIDAYS 50

4.3 HOLIDAY EFFECT BY INDIVIDUAL HOLIDAY 54

4.4 PRE-HOLIDAY RETURNS ARE NOT A MANIFESTATION OF OTHER CALENDAR ANOMALIES 59

4.5 RELATIONSHIP BETWEEN BUSINESS CYCLES AND PRE-HOLIDAY EFFECT FOR DIFFERENT FIRM SIZES 64

CHAPTER 5 : CONCLUSION AND RECOMMENDATIONS 68

5.1 SUMMARY 68

5.1.1 The Existence of Holiday Effect in the KLSE 68

5.1.2 Relationship Between Business Cycles and Pre-holiday Effect for Different Firm Sizes 69

5.2 POSSIBLE CAUSES FOR THE EXISTENCE OF HOLIDAY EFFECT 70

5.3 RECOMMENDATIONS 72

5.4 LIMITATIONS OF THE STUDY 72

5.5 SUGGESTIONS FOR FURTHER STUDIES 73
