Table Of Contents

List Of Figures I
List Of Tables II
Research Publications III

1 Introduction **1**

1.1 Introduction 1
1.2 Software Project Management Problems 2
1.3 Software Project Management Tools 4
1.4 Research Objective 5
1.5 Thesis Outline 7

2 Software Engineering Project Management 9

2.1 Introduction 9
2.2 Problems Affecting Development of Software Projects 10
2.3 Software Project Management Functions And Activities 14
2.3.1 Planning 14
2.3.1.1 Project Estimation 15
2.3.1.2 Project Schedule 19
2.3.2 Organizing 23
2.3.3 Staffing 25
2.3.4 Directing 27
2.3.5 Controlling 30
2.4 Process Management 31
2.5 Acquisition Management 32
2.6 Metrics Management 33
2.7 Risk Management 34
2.8 Software Configuration Management (SCM) 36
2.9 Software Project Management Quality 38

2.10 Software Quality Assurance (SQA) 39
2.11 Software Project Management Tools: Analysis & Comparison 40
2.11.1 Tools Evaluation 41
2.11.2 Analysis And Limitation Of Current Tools 43
2.12 Conclusion 45

3 Survey Of Software Engineering Project Management Problems In Malaysia 46

3.1 Survey Objectives 46
3.2 Prior Studies 46
3.3 Research Approach 49
3.4 Survey Results 49
3.5 Discussion 59
3.6 Correlation 60

4 Requirement Definition of SoftProMT 62

4.1 Introduction 62
4.2 Requirements Definition 62
4.2.1 Analysis Of Old Projects 63
4.2.2 Analyze And Compare Selected Projects 64
4.2.3 Assign Personnel 65
4.2.4 Availability 69
4.2.5 Change In Requirement 70
4.2.6 System Integration 70
4.2.7 Methodology 71
4.2.8 Display Information And Generate Reports 71
4.2.9 Tracking And Monitoring The Project 73
4.2.10 Technology Issue 73

5 Analysis And System Design 75

5.1 System Overview 75

5.2 Classes 75
5.3 Objects 77
5.4 System Design 79
5.4.1 Database Design Examples 84
5.4.2 Samples Of Screen Design 85
5.4.3 Examples On Input and Output Screen Design 91

6 Implementation Of SoftProMT **95**

6.1 Introduction 95
6.2 Algorithms 96
6.3 Implementation Description 101

7 Testing and validating SoftProMT **121**

7.1 Introduction 121
7.2 Testing Case 121
7.2.1 Some Samples Of SoftProMT Functionality Test 124
7.2.2 Detected Errors 136
7.3 Validation 136
7.4 Validatoion Results 137

8 Summary & Conclusion **140**

8.1 Summary 140
8.2 Contributions 141
8.2.1 Research Finding 141
8.2.2 SoftProMT Contributions 142
8.3 Further Research 144

Bibliography

Appendices

Appendix A The characteristics of software project management tools.

Appendix B Questionnaire on software project management problems in Malaysia.

Appendix C Questionnaire on SoftProMT validation.

List Of Figures

Figure 2.1: Milestone chart 20
Figure 2.2: An Example of a Gantt chart 21
Figure 2.3: An example of a PERT and CPM 23
Figure 2.4: Acquisition management 33
Figure 3.1: Bar chart representation of the planning problems 51
Figure 3.2: Bar chart representation of estimation problems 51
Figure 3.3: Bar chart representation of problems in organization 52
Figure 3.4: Bar chart representation of staffing problems 53
Figure 3.5: Bar chart representation of directing problems 54
Figure 3.6: The scales of the controlling problems 55
Figure 3.7: Bar chart representation on requirement problems 56
Figure 3.8: Bar chart representation of problem level 56
Figure 3.9: Phases where fault detected are most critical 57
Figure 3.10: Tool requirements at various stages 58
Figure 5.1: System overview 75
Figure 5.2: Class diagram 77
Figure 5.3: Objects diagram 78
Figure 5.4: Classes diagram 80
Figure 5.5a: Scenario for assigning personnel 81
Figure 5.5b: Scenario for changing and monitoring project requirements 83
Figure 5.6: Menu screen 87
Figure 5.7: Warning message for invalid dates 89
Figure 5.8: Question message for confirmation deleting the project 89
Figure 5.9: The help screen of change in requirement option 90
Figure 5.10: Project information 91
Figure 5.11: Activity form 92
Figure 5.12: The problems due to change in requirements 93
Figure 5.13: The report form of the problems due to change in requirements 94

Figure 5.14: Assign people base on certain factors 94
Figure 6.1: Main functions of the system. 95
Figure 6.2: The options from the ***File*** menu 96
Figure 6.3: The ***Show*** action from activity form. 98
Figure 6.4: The options in ***View*** from the main menu. 99
Figure 6.5: The options in the ***Tool*** 100
Figure 6.6: The system's main screen 101
Figure 6.7: The project form 103
Figure 6.8: The technology issue. 104
Figure 6.9: The selected methodology screen 105
Figure 6.10: The activity form 107
Figure 6.11: A sample of the problems in specification phase 108
Figure 6.12: The resources matching the conditions 108
Figure 6.13: The personnel information screen 109
Figure 6.14: Reusability in past project 109
Figure 6.15: The view, update, and delete activities and tasks information 110
Figure 6.16: People expert in a specific programming language 111
Figure 6.17: The information about the changes in requirements for a specific project 113
Figure 6.18: The bar chart of a project 115
Figure 6.19: The main screen for change in requirements 116
Figure 6.20: Displaying a person's availability 117
Figure 6.21: The availability of the personnel within two period time 118
Figure 6.22: The similar problems in the selected projects 120
Figure 7.1a: Project 1 and project 2 methodology 125
Figure 7.1b: Project 3 methodology 126
Figure 7.2: The problems in selected project 127
Figure 7.3: Shows that the selected problem is affecting the selected project 128
Figure 7.4: The similarity between project 1,2, and 3 129
Figure 7.5: The problems are affecting the selected projects 130
Figure 7.6: The person's availability 131
Figure 7.7a: The risk level (sample 1) 132

Figure 5.14: Assign people base on certain factors 94
Figure 6.1: Main functions of the system 95
Figure 6.2: The options from the ***File*** menu 96
Figure 6.3: The ***Show*** action from activity form 98
