## STRESS AMONG ADMINISTRATORS OF SECONDARY SCHOOLS

Dear Respondent,

I, Rema Ragavan, I.C. 631230-10-7470, am currently pursuing a Masters Degree in the field of Education (Administration) in the above mentioned university. I have elected to research the topic of School Administrator Stress with special focus on administrators of secondary schools. Sadly, research in this area of school administration has been sorely neglected, despite the grave consequences that may arise due to the mismanagement of school administrator stress. Widely researched in other parts of the developed world, this issue has unfortunately been overlooked in our country, unlike that of teacher stress. Currently, there exists only one other research paper on Primary School Administrator Stress, carried out in 1996 in the state of Selangor. This would make my endeavour a pioneering research in which I most graciously invite your participation.

I would like to stress that this is not a test of any kind and that all information will be held in the strictest of confidence. I would also like to ask your kind cooperation in answering sincerely and to the best of your ability. This is to ensure that the information gained through this research would be meaningful. It can then be used by the proper authorities in two ways; as a tool to improve service conditions for the current generation of administrators, and also to help in the preparation of future generations of administrators. The enclosed questionnaire has two parts:

- Section A : Personal particulars. Please fill in the space provided or tick in the appropriate box.
- Section B: Instrument known as the ADMINISTRATIVE STRESS INDEX. Please indicate your response by circling the number that reflects your opinion best.

Thanking you in advance for your time and your patience.

Sincerely yours,

Rema Ragavan 26 January 2000
