

## **CONTENTS**

	<i>Page</i>
<b>ACKNOWLEDGEMENT</b>	<b>i</b>
<b>ABSTRACT</b>	<b>ii</b>
<b>LIST OF TABLES</b>	<b>v</b>
<b>LIST OF FIGURES</b>	<b>vii</b>
<b>LIST OF PLATES</b>	<b>viii</b>
<b>LIST OF ABBREVIATIONS</b>	<b>ix</b>
<b>CHAPTER ONE: INTRODUCTION</b>	
1. 1 General waste	1
1. 2 Clinical waste	1
1. 3 Clinical waste classification	1
1. 3. 1 Hospital waste	2
1. 3. 2 Infectious waste	2
1. 4 Clinical waste hierarchy	2
1. 5 Clinical waste generation - Malaysian scenario	3
1. 6 Clinical waste - International scenario	4
1. 7 Legal framework	5
1. 8 Grouping of hospital wastes	6
1. 9 Scope and objective of the present study	8
<b>CHAPTER TWO: LITERATURE REVIEW</b>	
2. 1 Clinical waste generation and identification	10
2.1.1 Characteristics of Clinical waste	10
2.1.2 Generation and Identification	10
2.1.3 Scheduled waste	11

2.1.4	Scheduled substances	11
2.1.5	Special waste identification guideline	13
2.1.6	Distinguishing features of Clinical wastes	17
2.1.7	Logo for Clinical (infectious) waste	18
2.1.8	Clinical waste arising from research	19
2.1.9	Clinical waste from veterinary centres and practices	20
2.1.10	Cytotoxic (drug) wastes	21
2.1.11	Radioactive waste	22
2.1.12	Reactive wastes	
2.2	Clinical waste collection and storage	24
2.2.1	Clinical wastes: source identification codes used in Malaysia	24
2.2.2	Communicable diseases	25
2.2.3	Handling and personal protection	26
2.2.4	Recording and documentation of Clinical waste	26
2.2.5	List of hazards and risks	27
2.2.6	Sealing and tagging	27
2.2.7	Weighing and recording	28
2.2.8	Segregation of waste	29
2.2.9	Clinical waste bags and specifications: waste bags for infectious waste	29
2.2.10	Collection of Clinical waste and data	31
2.2.11	Central storage for Clinical waste	32
2.3	Clinical waste: Treatment and disposal	32
2.3.1	Autoclaving of infectious Clinical waste	32
2.3.2	Training and care with Clinical waste handling	34
2.3.3	Spillage management	34
2.3.4	Waste encapsulation	34
2.3.5	Sorting and disposal of pharmaceuticals	35
2.3.6	Vehicles transporting Clinical waste	36
2.3.7	Transport on the highways	38
2.3.8	Alternative methods for treating Clinical wastes	38
2.3.9	Incineration of Clinical waste, weighing and accounting	39

2.3.10	Pathogenic destruction	40
2.3.11	Monitoring incinerator emissions	41
2.3.12	Disposal of residues and ash	42
2.3.13	Needles and syringes disposal	42
2.3.14	Clinical waste disposal methods	44
2.3.15	Clinical waste disposal plan	45
2.3.16	Secure landfill	45
2.3.17	Medical professionals	48

### CHAPTER THREE: METHODOLOGY

3.1	Basic method of study	49
3.2	Precautionary personal protection	50
3.3	Teleuk Intan District hospital	50
3.4	Waste quantification	51
3.5	Kamunting Clinical wastes incinerator plant	52
3.5.1	Stack emission analysis	52
3.5.2	Temperature	52
3.5.3	Moisture content	52
3.5.4	Measurement of emissions gaseous composition	53
3.5.5	Smoke density	53
3.5.6	Total particulate concentration	53
3.5.7	Sulphuric acid mist and/or sulphur trioxide	54
3.5.8	Hydrochloric acid (HCl)	54
3.5.9	Fluorides/Hydrofluoric acid (HFI)	54
3.5.10	Hydrogen Sulfide	54
3.5.11	Heavy metals analysis	55
3.5.12	Total (volatile) organic compounds (VOCs)	55
3.5.13	Polychlorinated dibenzo-p-dioxins (PCDFs) and Polychlorinated dibenzofurans (PCDFs)	55
3.5.14	Incinerator residue ash analysis	56

## **CHAPTER FOUR: RESULTS AND DISCUSSIONS**

4. 1	List of Government hospitals in West Malaysia	57
4. 2	Distribution of beds in the Government hospitals	58
4. 3	Licensed private hospitals in Malaysia	59
4. 4	Clinical waste management in Teluk Intan District hospital (Case study 1)	59
4. 5	Bed occupancy rate in the MOH hospitals of Malaysia	63
4. 6	Clinical waste management in the Northern States of Peninsular Malaysia, Sabah and Sarawak	63
4. 7	Clinical wastes handling tools and facilities	64
4. 8	Daily waste generation data in the Northern States of Peninsular Malaysia , Sabah and Sarawak in the year 1997 and 1998.	66
4. 9	Waste generation in the MOH hospitals in 1998	71
4. 10	Emission standards and operating conditions	72
4. 11	Stack emission analysis	74
4. 12	Final results of Dioxin and Furan analysis	76

## **CHAPTER FIVE: GENERAL DISCUSSION AND SUMMARY**

79

## **CHAPTER SIX: CONCLUSION**

83

## **REFERENCES**

85

## **APPENDICES:**

<b>APPENDIX I.</b>	<b>List of Govt. hospitals in West Malaysia (1997)</b>
--------------------	--

A1

<b>APPENDIX II. List of Licensed Private hospitals in Malaysia (1997)</b>	<b>A2</b>
<b>APPENDIX III. List of Govt. Hospitals in East Malaysia</b>	<b>A3</b>
<b>APPENDIX IV. Scheduled substances</b>	<b>A4</b>
<b>APPENDIX V. List of Hazards</b>	<b>A5</b>
<b>APPENDIX VI. Bed occupancy rate, capacity and waste volume in</b>	
<b>The hospitals of Northern States, Sabah &amp; Sarawak</b>	<b>A6</b>
<b>APPENDIX VII . Clinical waste handling tools and equipment</b>	<b>A7</b>
<b>APPENDIX VIII. Clinical waste disposable tools and handling staff force</b>	<b>A8</b>
<b>APPENDIX IX. Technical data Kamunting (Clinical waste) Incinerator</b>	<b>A9</b>
<b>APPENDIX X. Teluk Intan District hospital Layout &amp; Directory</b>	<b>A10</b>
<b>APPENDIX XI. Bio-Medical Incinerator locations in Northern States of</b>	
<b>Peninsular Malaysia</b>	<b>A11</b>
<b>APPENDIX XII. Bio-Medical Waste Incinerators in Sabah</b>	<b>A12</b>
<b>APPENDIX XIII. Bio-Medical waste Incinerators in Sarawak</b>	<b>A13</b>
<b>APPENDIX XIV. Cross section of a Bio-Medical waste Incinerator</b>	<b>A14</b>
<b>APPENDIX XV. Consignment note for Scheduled waste</b>	<b>A15</b>
