ACKNOWLEDGEMENTS

I wish to express my sincere appreciation to my supervisor, Associate Professor Dr. Idris Jajri for his invaluable time, guidance and helpful advice that enabled me to successfully complete this study.

I am also thanks to those in the Malaysian Industrial Development Authority (MIDA), Ministry of International Trade and Industry (MITI), Department of Statistics (DOS) and Small and Medium Industries Development Corporation (SMIDEC) for providing relevant information.

My special thanks to my course-mate, Matarr and my best friend, Lee Yit Siew who in one way or another have contributed to the successful completion of my study.

My deepest appreciation and love to all my family members, especially my mother, for their understanding and encouragement during the past two years of this MEc course.

Not forgetting, to Sin Huei, who has been so understanding throughout the duration of this course.
