ACKNOWLEDGEMENT

In the name of the Almighty, Allah Subhanahuata'la. It is with His grace and consent that this research report is completed, hence the thanks should first and foremost be bestowed on Him.

I wish to express my sincerest gratitude to my supervisor, Dr. Mahmud Hasan Khan who has supported me throughout my research report with his patience and knowledge. I attribute the level of my Masters degree to his encouragement and effort and without him this Research Report would not have been completed or written. One simply could not wish for a better or inspiring supervisor.

The completion of this Research Report was not without any obstacles. But I am glad to be blessed with a supportive and loving husband, Abdul Haye b. Semail. It is with his continuous encouragement that I managed to pull through during the very difficult times endured. Next comes the three angles, Aina Hayati Abd. Haye (15), Arif Hafizi Abd. Haye (12) and Adam Haikal Abd. Haye (11). I hope my perseverance and determination in achieving the Masters Degree will inspire them.

In my daily work I have been blessed with a friendly and cheerful group. I wish to pay my tribute to all of them for the support and encouragement given.

I wish to thank my parents, Hashim b. Awang and Che Gayah Mat Akib, for their undying support and unconditional love they showered on me all these years- especially during the two years of studies in this university. Their support, encouragement and prayers are the things that I could not do without.

Last but not least, my gratitude goes to the most helpful individuals at the NST Archive and also to all those who were directly and indirectly involved in the completion of the research report. May Allah bless all of you.
