Acknowledgements

My deepest heartfelt gratitude goes to my supervisor, Dr. Jawakhir Mior Jaafar for her on-going and sincere guidance, both academically and emotionally, throughout the whole journey of writing this research project.

My greatest appreciation to my family members, especially my mother: Zawiyah Ali, who has supported me unconditionally throughout this challenging research journey. Special thanks also to my fiancé, Saiful Izwan Zainal and my close friend at UM, Ruqayya Majid for their constant support and genuine belief that I will be able to complete this study in one semester. I would also like to express my thanks to all my lecturers at the Faculty of Languages and Linguistics, University of Malaya, who have directly and indirectly helped me in many aspects.

I am deeply indebted to all my informants and subjects for this study, both for the questionnaires and the semi-structured interviews, who have helped me to gather relevant information in order to achieve the objectives of this study. Thanks are also due to my friends who were continuously motivating me to complete this research project with utmost success. Last but not least, I would like to express my gratitude to all my fellow friends at UM for always being a source of joy and support.
