ACKNOWLEDGEMENT

I wish to express a deep sense of gratitude and my heartfelt thanks to my mentor and supervisor, Pn. Ainun Rozana Mohd Zaid of the Languages and Linguistics Faculty, University Malaya, who has taken immense trouble to help, guide and encourage me to complete this thesis. Her continuous encouragement played a very crucial role in motivating me to keep on moving especially at times when I felt so discouraged.

Many thanks to the Front Office manager of the hotel, for the understanding, interest and assistance given in the preparation of this thesis and also to the Front Office staff for their time and support in answering the questionnaires and giving me their honest opinions.

Lastly, to my wife, for her willingness to discuss subjects and provide ideas that are so far removed from her own interests, and for pushing me forward despite all the unforeseen problems and circumstances that almost made me give up this study.
