Synopsis	ii
Sinopsis	iii
Acknowledgements	iv
Table of Contents	v
List of Appendices	xv
List of Figures	xvi
List of Tables	xviii
List of Abbreviations	xxi
CHAPTER 1: INTRODUCTION	1
Problem Statement	5
Purpose of the Study	10
Objectives of the Study	10
Research Questions	12
Significance of the Study	13
Scope of the Study	14
Limits of the Study	15
Definitions of Terms	17

CHAPTER 2: REVIEW OF LITERATURE	20
Nature of Science and Science Education	20
Scientific Knowledge	22
Scientific Methods	23
The Reality of Science Education in Malaysia	24
Importance of Communication in Science	26
Principles for Science Instruction	28
The Use of Technology in Teaching Science	30
Computer-Mediated Communication Tools	33
Nature of Collaborative Learning	35
Collaborative Learning using CMC	36
Learning at a Distance: mLearning	38
Forms of mLearning	41
Collaborative mLearning	45
Benefits of Collaborative mLearning	46
Limitations of Collaborative mLearning	52
Delivery of Collaborative mLearning	55
Text and Multimedia Messaging	55
Global Positioning System	58
Content for Collaborative mLearning	59
mLearning Management System	61
Collaborative mLearning in Malaysia	63
Collaborative mLearning in Secondary School Science	65
Designing Content for Collaborative mLearning	67
Comparison of CMC Tools for Learning	70

Theoretical Foundations of this Research	73
Instructional Design	73
The Importance of the Educational Context	74
Purpose of Instructional Design	76
Methodologies of Instructional Design Research	77
Instructional Design Theory Development	77
Instructional Design Models	79
The Social Aspect in Instructional Design Model	80
Development	
First Principles of Instruction: A Synthesis of Instructional	84
Design Theory	
Problem	85
Activation	86
Demonstration	87
Application	87
Integration	88
Learning theories	89
Social Constructivist Theory	90
Modeling Instruction	91
Peer Collaboration	93
Instructional Scaffolding	94
The Attribution Theory	96
A Framework for Collaborative mLearning	98
Summary of Theories	100
Chapter Summary	101

CHAPTER 3: METHODOLOGY	102
Phase 1 of Developmental Research: Analysis	103
Sample of the Study	104
Procedure	104
The Instrument	105
The Initial Study	106
Document Analysis	107
Choice of Content Topic	107
Phase 2 of Developmental Research: Design and Development	111
Design Documents for Collaborative mLearning Module	112
Designing the Problem Task	112
Designing the Syllabus and Lessons	115
Designing the Logistics and Policies	115
Designing the Learning Environment	116
Designing the Interactions	117
Formative Evaluation 1	119
Evaluation of the Design of the Collaborative mLearning Module	119
Participants of the Study	119
Selection of Experts	120
Data Collection and Analysis	123
Phase 3 of Developmental Research: Implementation and Evaluation	125
Sample of the Study	125

Implementation Procedures	126
Evaluation Procedure	127
Data Collection during Implementation	128
Data Collection after Implementation	129
Analysis of Data	130
Validity and Reliability	131
Summary of the Methodology	132

CHAPTER 4: FINDINGS OF PHASE 1

THE ANALYSIS	133
Situation Regarding the Use of Technology	133
Perception of skills in Computer and Mobile Phone Usage	134
Technology Equipment Accessed	135
Frequency of Use of Technology in Basic Computer Operations and Concepts, and Research and Problem Solving Tools for Learning	136
Frequency of Use of Communication Tools for Learning	138
Perception on the Use of Technology	141
Implications of the Findings on the Design of the Module	146
The Use of Technology of the Students in the Context of the Study	146
Document Analysis	148
Summary of the Analysis Phase	150

CHAPTER 5: FINDINGS OF PHASE 2	151
THE DESIGN AND DEVELOPMENT	
Design of the Collaborative mLearning Module: the Experts’	152
Opinion	
Management of the Module	153
Cost of Technology	153
Duration for completion of module	153
Management and tracking of participants' responses	155
Instructional Issues	155
Use of Simple Language	155
Accuracy of Content	157
Scientific Symbols	157
Shortened Forms	158
Spelling and Grammar	158
Facts and Concepts	158
Instructional Needs	159
Instructional Modules	159
Examples	160
Detailed Marking Scheme and Guidelines	160
Assessment	162
Other Learning Theories	163
Collaborative Online Environment	168
Language and Other Rules for Learning Environment	169
Freedom and Choice for Personalising Learning	170

Peer Discussion and Face-To-Face Meetings	171
Evaluation of Online Postings	172
Instructional Tools	174
Web-Based Materials	174
Graphic Organizers	175
Text Messaging	176
Summary of Experts' Opinion for Design	178
Development of the Collaborative mLearning Module based on	180
Experts' Opinion	
Management of the Module	180
Cost of Equipment Usage	180
Technologies for the Delivery of Materials and Interaction	181
The Collaborative mLearning Website for Nutrition	182
The Online Discussion Forums, <i>Yahoo Groups</i>	183
The Collaborative Work Space on the <i>Freewebs</i> Wiki	184
The Text Messaging System, <i>Mobile Connect</i>	185
Management and Tracking of Participants' Responses	186
Tracking using <i>MS Excel</i> Spreadsheet	187
Design of Instruction in the Module	190
Duration for Completion of module	191
Resources for the Instructional Module	191
Message Design	193
Learning Theories	194
Text Messaging	194

The Collaborative mLearning Environment	196
Guidelines for the Learning Environment	197
Interaction in the Collaborative mLearning Environment	198
Summary of the Development Phase	201
CHAPTER 6: FINDINGS OF PHASE 3	202
THE EVALUATION	
Perceptions of the Activities and CMC Tools	203
Preference of Activities and CMC Tool	203
Frequency of Participation in the Use of the CMC Tools	206
Other Tools for Collaboration	212
Ease of Access of the CMC tools	214
Summary of the Perceptions of the Activities and CMC Tools	217
Difficulties in the Implementation of the Activities	218
The Medium of Instruction	218
Technical Difficulties	220
Proficiency in Science	221
The Quantity of Tasks in the Activities	222
Complexity of Tasks	223
Summary of the Difficulties in the Implementation of the Activities	224
Collaborative mLearning	225
Collaboration with Group Members	225
The Role of a Tutor	229
Participants' learning using the Collaborative mLearning Module	231

Understanding of science	231
Effectiveness of the module	234
Motivation	235
Interest	238
Recommendation of the tool to others	240
Summary of Learning using the Collaborative mLearning Module	241
Summary of the Evaluation Phase	242
CHAPTER 7: DISCUSSION AND CONCLUSION	243
Summary of the Study	243
Discussion	246
The Developmental Research Process	246
The Collaborative mLearning Module	248
Media	248
Design of Tasks	249
The Learning Tools	251
The Collaborative mLearning Environment	254
Interactions in the Learning Tools	254
The Collaborative mLearning	258
Implications of this Research	261
Implications for instructional design	261
Implications for Teaching and Learning	264
Limitations of the Study	269
Further Research	271
Conclusion	272

List of Appendices

Appendix A	Technology Skills and Usage Questionnaire	290
Appendix B	Mapping of Learning Outcomes	295
Appendix C	Task Analysis of The Collaborative mLearning Lessons	301
Appendix D	The Collaborative mLearning Module	343
Appendix E	The Checklist For Evaluation of Instructional Materials	399
Appendix F	Letter of Consent and Parent's Approval	403
Appendix G	Pre test on Topic of Nutrition	405
Appendix H	Post test on Topic of Nutrition	406
Appendix I	Evaluation of Collaborative mLearning Module	408
Appendix J	Focus Group Interviews After Implementation of Collaborative mLearning Module	413
Appendix K	Changes to Source for Quotations	414
Appendix L	Permission Letters for Conducting Research in Schools	415

LIST OF FIGURES

	Pages	
Figure 2.1	Classification of mobile technologies (Naismith et. al., 2004)	42
Figure 2.2	The relationship between CMC, collaborative learning and mLearning	45
Figure 2.3	First Principles of Instruction synthesized	86
Figure 2.4	A conceptual model for a collaborative mLearning environment	95
Figure 2.5	The FRAME Model	99
Figure 3.1	Summary of phases in developmental research	103
Figure 3.2	Research Procedure in Phase 1: Analysis	109
Figure 3.3	A conceptual model for the collaborative mLearning tools and the interactions	117
Figure 3.4	Design of the collaborative mLearning module	118
Figure 3.5	Procedure for data collection and development in the design phase	124
Figure 3.6	Procedure for data collection in phase 3: Implementation and evaluation	130
Figure 5.1	Summary of experts' opinions	178
Figure 5.2	List of lessons on collaborative mLearning module	183
Figure 5.3	Screen capture of Home page on <i>Yahoo</i> groups	184
Figure 5.4	Screen capture of <i>Group Wiki</i> page in <i>Freewebs</i>	185
Figure 5.5	Screen capture of text messaging system, <i>Mobile Connect</i> .	186
Figure 5.6	Template for tracking and record of SMS Quiz for Lesson 1 in <i>MS Excel</i>	188
Figure 5.7	Template for tracking and record of activities for Lesson 1 in <i>MS Excel</i>	189
Figure 5.8	Instructional Module for Lesson 6: The Digestive System	192
Figure 5.9	Screen capture of text messaging feature	195

Figure 6.1	List of first few topics in the <i>Yahoo group</i> forum	205
Figure 6.2	Answering questions of the discussion forum on the wiki	207
Figure 6.3	Frequency of posts and views on <i>Freewebs</i> forum for discussion question on Lesson 6	209
Figure 6.4	Screen capture of participant answering SMS Quiz on <i>Yahoo Instant Messenger</i>	213
Figure 6.5	Screen captures of two groups which used graphics and animation on their group wiki	215
Figure 6.6	Screen capture of a discussion on the wiki on how to attempt the task	223
Figure 6.7	Screen capture of the exchange on the discussion forum on negotiation for a delay in deadline	224
Figure 6.8	Screen capture of online task of a group which collaborated well	228
Figure 7.1	The process in developmental research	247
Figure 7.2	Components of the collaborative mLearning module	250
Figure 7.3	Stages in a lesson in the collaborative mLearning module	253
Figure 7.4	The interactions in the collaborative mLearning module	257
Figure 7.5	The process in development of a collaborative mLearning module	263
Figure 7.6	The collaborative mLearning module	265
Figure 7.7	Implementing the collaborative mLearning module	265

LIST OF TABLES

		Pages
Table 3.1	Designing Lesson 4: Counting Calories	112
Table 3.2	A Comparison of Experts' Experience and Qualification	122
Table 4.1	Respondents' Perception of Skills in the Use of Computers and Mobile Phones	135
Table 4.2	Ownership and Access to Technology Equipment	136
Table 4.3	Analysis of frequency of Use of Technology in Basic Computer Operations and Concepts, and Research And Problem Solving Tools	137
Table 4.4	Analysis of Frequency of Use of Technology Communication Tools	139
Table 4.5	Students' Beliefs on the Use of Computers	141
Table 4.6	Students' Beliefs on the Use of mobile Phones	144
Table 4.7	Recommendations Based on the Findings of the Analysis Phase	148
Table 4.8	Recommendations and Outcomes based on Document Analysis	149
Table 5.1	Addressing the Areas of Concern in the Design of the Collaborative mLearning Module	199
Table 6.1	Participants' Perception of the Activities on the Technology Tool Used.	204
Table 6.2	Frequency of Group Members' Use of Wiki for Working on Online Problem Task	206
Table 6.3	Frequency of Participants' Posts in Discussion Questions on the CMC Tools for the Lessons in the Module	208
Table 6.4	Frequency of Participants' Posts and Views of Posts on the <i>Freewebs</i> Forum for the Lessons in the Module	210
Table 6.5	Frequency of Participants' Use of SMS Quiz via Text Messaging for the Lessons in the Module	211

		Pages
Table 6.6	Frequency of Ease and Difficulty of Use of Technology Tools	214
Table 6.7	Perception of Areas of Difficulty According to Language, Technical Requirement and Subject	219
Table 6.8	Frequency of Participants' Perception of Group Work	226
Table 6.9	Frequency of Posts on the Discussion Questions according to Individual or Group Replies for Each Lesson	227
Table 6.10	Perception of Assistance from Tutor by Participants	230
Table 6.11	Participants' Learning using the Collaborative mLearning Module.	232
Table 6.12	Mean of Pretest and Post Test Scores of Participants.	234
Table 6.13	Participants' Interest in Using the Collaborative mLearning Module	239
Table 6.14	Participants' Willingness to Recommend the Tool to Friends	241
Table 7.1	Guidelines for Development of a Collaborative mLearning Module	266

LIST OF ABBREVIATIONS

CMC	Computer-mediated communications
CSCL	Computer supported collaborative learning
FRAME	Framework for the Rational Analysis of Mobile Education
GPS	Global positioning system
ICSS	Integrated Curriculum for Secondary Schools
ICT	Information communications technology
ID	Instructional design
LMS	Learning Management System
mLearning	Mobile learning
MDeC	Multimedia Development Corporation
MMS	Multimedia messaging system
MOE	Ministry of Education
PC	Personal computer
PDA	Personal Digital Assistant
PPB	<i>Pembangunan Pendidikan Bestari</i> [Smart School Development]
PPPBSB	<i>Pasukan Penyelidik Penilaian Bersepadu Sekolah Bestari</i> [Integrated Smart School Evaluation Research Team]
SME	Subject matter expert
SMS	Short text messaging system
SSPP	Smart School Pilot Project
TE	Technical expert
WiFi	Wireless Fidelity
XHTML	A form of programming language for the web
