

## TABLE OF CONTENTS

Chapter	Page
<b>ABSTRACT</b>	
<b>ACKNOWLEDGMENTS</b>	
<b>CHAPTER 1 INTRODUCTION</b>	
1.0 Introduction	1
1.1 Background of study	1
1.2 Online grocery shopping in Malaysia	4
1.3 Research questions	6
1.4 Objectives of the study	7
1.5 Significant of the study	8
1.6 Scope of the study	9
1.7 Organisation of the report	10
<b>CHAPTER 2 LITERATURE REVIEW</b>	
2.0 introduction	12
2.1 Research framework	12
2.1.1 Perceived convenience	15
2.1.2 Perceived information accessibility	20
2.1.3 Perceived order accessibility	24
2.1.4 Perceived risk	27
2.1.5 Perceived enjoyment	34
2.1.6 Social factors	37
2.1.7 Attitude towards online grocery shopping	40
<b>CHAPTER 3 RESEARCH METHODOLOGY</b>	
3.0 introduction	43
3.1 Research hypotheses	43
3.2 Measurement of constructs	45

Chapter	Page
3.2.1 Measuring the perceived convenience construct	46
3.2.2 Measuring the perceived information accessibility construct	47
3.2.3 Measuring the perceived order accessibility construct	48
3.2.4 Measuring the perceived risk construct	48
3.2.5 Measuring the perceived enjoyment	49
3.2.6 Measuring the social factors construct	50
3.2.7 Measuring the attitude towards online grocery shopping construct	51
3.2.8 Measuring the future online grocery buying intention construct	52
3.3 Research instrument	53
3.4 Sampling techniques	55
3.5 Data collection procedures	56
3.6 Data analysis techniques	57
<b>CHAPTER 4</b>	<b>RESEARCH RESULTS</b>
4.0 Introduction	61
4.1 Summary of data collection	61
4.2 Respondent Profile	62
4.3 Consumer behaviour of online purchase	65
4.4 Analyses of measures	69
4.4.1 Factor Analysis	69
4.4.2 Reliability assessment	72
4.5 Structural equation modeling – model fit	74
4.5.1 Initial result of model fit	74
4.5.2 Model modification	76
4.6 Correlation analysis	78
4.6.1 Correlation analysis between independent variables and Attitude towards online grocery shopping	79

Chapter		Page
4.6.2	Correlation analysis between independent variables and future online grocery buying intention	80
4.6.3	Correlation analysis between attitude towards online Grocery buying and future online grocery buying intention	81
4.7	Multiple regression analysis	81
4.7.1	Multiple regression analysis for independent variables and attitudes towards online grocery shopping	82
4.7.2	Multiple regression analysis for independent variables and f future online grocery buying intention	83
4.8	Hypotheses testing (H1-H13)	84
4.8.1	Structural equation modeling	85

## **CHAPTER 5 CONCLUSION AND RECOMMENDATIONS**

5.0	introduction	92
5.1	Overview of the study	92
5.2	Major findings	96
5.2.1	Profile of the respondents	96
5.2.2	Consumer behaviour of online purchase	97
5.2.3	Analyses of Measures	97
5.2.4	Structural equation modeling – model fit	99
5.2.5	Correlation analysis	100
5.2.6	Multiple regression analysis	100
5.2.7	Hypotheses testing	101
5.3	Discussion	107
5.4	Contributions of the study	111
5.4.1	Theoretical contribution	111
5.4.2	Practical contribution	112
5.5	Limitation of the study	113
5.6	Recommendations for Future Research	115

Chapter	Page
<b>BIBLIOGRAPHY</b>	117
<b>APPENDIX 1</b>	
Original English & Malay version of questionnaire	128
<b>APPENDIX 2</b>	
Questionnaire items and their corrected item-total correlations	136
<b>APPENDIX 3</b>	
Results for factor analysis of independent variables	138

## LIST OF FIGURES

Figures	Page
2.1 Research framework for understanding consumer online grocery shopping behaviour	13
4.1 Initial model of online grocery shopping	75
4.2 Final model of online grocery shopping attributes	77
4.3 Hypotheses testing of online grocery shopping attributes	85

## LIST OF TABLES

Tables	Page	
2.1	Categories of perceived risk	28
3.1	Items to measure the perceived convenience	46
3.2	Items to measure the perceived information accessibility	47
3.3	Items to measure the perceived order accessibility	48
3.4	Items to measure the perceived risk	49
3.5	Items to measure the perceived enjoyment	50
3.6	Items to measure the social factors	51
3.7	Items to measure the attitude towards online grocery shopping	52
3.8	Items to measure the future online grocery buying intention	53
4.1	Summary of data collection	61
4.2	Demographic profile of the respondents	64
4.3	Consumer behaviour of online purchase	67
4.4	Principal factor analysis for independent variables	71
4.5	Principal factor analysis for mediating variables and dependent variables	72
4.6	Reliability assessment	72
4.7	Initial fit indices for online grocery shopping attributes	75
4.8	Final fit indices for online grocery shopping attributes	76
4.9	Correlation between independent variables, mediating variables and dependent variables	79
4.10	Model summary, ANOVA result, relations between attitude towards online grocery shopping and perceived convenience, perceived information accessibility, perceived order accessibility, perceived risk, perceived enjoyment and social factors	82
4.11	Model summary, ANOVA result, relations between future online grocery buying intention and perceived convenience, perceived information accessibility, perceived order	

Tables	Page
accessibility, perceived risk, perceived enjoyment and social factors	83
4.12 Structural model estimation results	88
5.1 Summary of hypotheses testing	107
