Subject: Requesting for research instrument

Dear Professor James,

Good day to you!

I am Angie Lee Meei Eng , MBA student of University of Malaya from Malaysia.

I read with great interest your journal article titled "Building a climate of innovative through transformational leadership and organization culture" (2008).

I am conducting the similar research, thus would like to check whether the instrument/ questionnaire which you used for the study can be adapted or replicated for my research.

Therefore, I am writing to you in hope that you would not mind sharing with me your research knowledge by affording me a copy of the questionnaire or directing to me to a website which provides free access to the questionnaire.

I assure you that your questionnaire will be treated with the strictest confidentiality and will be used solely for academic purposes and knowledge generation.

Thank you in advance for your kind consideration and understanding.
I look forward to hearing from you.

Thanks and regards.

Angie Lee Meei Eng
