Universiti Utara Malaysia

Malaysia

2005

Submitted to the Graduate School of Business

Faculty of Business and Accountancy

University of Malaya, in partial fulfilment

of the requirements for the Degree of

Master of Business Administration

February 2011

## **ACKNOWLEDGEMENT**

I would like to take this opportunity to express my gratitude for all the support, supervision and encouragement that have given me throughout this research project. Without this assistance, I would have never been able to complete my research project to fulfil the requirements for the Degree of Master Business of Administration.

First of all, I would like to dedicate my utmost appreciation to my research project supervisor, Dr Norbani Che-Ha, for her continuous supports throughout the whole progress of this research project. Her passion on academic, guidance and encouragement had greatly motivated me to move forward and persevere with this challenging task.

Secondly, I would like to express my sincere thanks to all the respondents that have spent their valuable time to fill in the questionnaire during the data collection period. Without them, this research project would never be accomplished. It is hoped that their participations and feedbacks can contribute to the development of green marketing, green personal care and cosmetic products in Malaysia. Lastly, a big thanks to my partner, Ben Chan that have supported me all this while, my fellow course mates and friends for their comments and recommendation, and their participation in questionnaire distributions which had certainly helped me to achieve my goal.
