All Praise to ALLAH S.W.T the Almighty, for giving me the blessing, the strength, the chance and endurance to complete this study.

I would like to express my sincere gratitude to my supervisor Associate Professor Dr. Mohamed Ibrahim Noordin for his time, generous guidance, patience and encouragement throughout the whole dissertation project, from which I have learned a lot regarding my title.

I could not have finished this study without full support of my beloved mother, my sisters, and my brother. Their love, encouragements and continuous pray have make me more strong each and every day on completing this study.

I would like to extend my deepest appreciation to all the staff in Department of Pharmacy, Faculty of Medicine, all my friends and staff in the Faculty of Science for kind support and help on the technical and the administrative aspect of the study.
