Student Questionnaire Schedule
August, 2008

Research title:

Development of an Evaluation Instrument for Web-Based Learning Environment (WBLE) in Syria

Instructions
1. This questionnaire aims to find out what you think of the Web site that you have been using for this unit regarding the ease of use (Usability), the quality of learning design and the quality of teaching and strategic styles (Pedagogy), the added value of using the online learning (Added value), the ease of accessibility to the Web site and learning material (Accessibility), and finally the quality of the presented information (Information quality).
2. The term “class Web site” used in this questionnaire refers to the Web site that you used to access the learning material or course. You may have been using WebCT, Blackboard, TopClass, or some other online courseware to access your course material.
3. The unit refers to the learning (or module’s) content, assignment, tests, communication, or any other learning materials obtained from the course homepage.
4. There are no ‘right’ or ‘wrong’ answers. Your opinion is what is wanted. This is not a test.
5. Your name and answers will not be shown to anyone else.
6. Throughout the following you will find a number of statements. Some words and terminologies are explained at the end of this questionnaire. Read these statements carefully and think about how well the statement describes your Web site.
7. Most questions will ask you to circle the number that best corresponds to your answer. Example:

<table>
<thead>
<tr>
<th>Strongly Disagree</th>
<th>Disagree</th>
<th>Uncertain</th>
<th>Agree</th>
<th>Strongly Agree</th>
</tr>
</thead>
<tbody>
<tr>
<td>The class Web site is always easy to access.</td>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
</tr>
</tbody>
</table>

Your opinion may be:
- If you think that the class Web site is always easy to access, circle the number (5) which means the <SA> option.
- If you think that the class Web site is never easy to access, circle the number (1) which means the <SD> option.
- If you think the question is not applicable to you, circle the number (3) which means the <U> option.
- Or you can circle the (2) or (4) numbers if this seems like a more accurate answer.
8. Some questions will use check boxes (□). These allow you to choose more than one answer for the question (you will tick the boxes that correspond to the answers).
9. Some questions have options; circle the option that best corresponds to your answer.
10. You may find that some of the questions seem to be repeated in different sections of the questionnaire. This is to assist with the analysis of the questionnaire.
11. Please, for any query contact me on: abdullatif_ismail@hotmail.com, mobile: 0944629198.

Please answer all of the questions. Questions marked “optional” may be omitted.
Section 1: Student identity & General questions

1. Name (Optional):  
2. Age  
3. Gender (M/F)  
4. Faculty  
5. Year of study  
6. Name of course  
7. Course_ID  
8. Do you have access to your class Web site at home?  
   1. Yes  
   2. No  
9. Have you received any orientation training with this WBLE?  
   A. None  
   B. 1 to 4 hours  
   C. 4 to 8 hours  
   D. up to 3 days  
10. Did you feel you needed any additional WBLE training?  
    1. Yes  
    2. No  
11. How would you rate your ability in using a computer?  
    A. Novice user  
    B. Competent user  
    C. Proficient user  
    D. Expert user

Section 2: Usability Evaluation

Usability is the extent to which a product can be used by specified users to achieve specified goals with effectiveness, efficiency and satisfaction in a specified context of use.

Part 1. Usability Basic Attributes

A. Learnability

12. The system was easy for me to accomplish basic tasks the first time I encounter it.  

   1  2  3  4  5

B. Efficiency

13. Once I have learned to use the system, I can quickly perform tasks.  

   1  2  3  4  5

C. Memorability

14. I can easily re-establish proficiency after a period of not using the system.  

   1  2  3  4  5

D. Errors Recovery

15. I can recover from errors easily.  

   1  2  3  4  5

E. User Satisfaction

16. The system is pleasant, comfortable and acceptable of use.  

   1  2  3  4  5

Part 2. Technical Usability

A. Performance

17. No links in the user interface were missing or broken. All links work.  

   1  2  3  4  5

18. Most web pages take less time to load.  

   1  2  3  4  5

19. Most pages on the website work with all browsers and various versions of each, and still have the same characteristics.  

   1  2  3  4  5
20. I am satisfied with the site’s performance.  1 2 3 4 5

**B. User Interface Design**

21. The main User Interface is not busy.  1 2 3 4 5
22. Horizontal scrolling was avoided.  1 2 3 4 5
23. Blinking or Ticker-Tape text was avoided.  1 2 3 4 5
24. Height and width dimensions are included in all “image” tags.  1 2 3 4 5
25. The user interface design uses standard colors for links (blue for links and red or purple for visited links).  1 2 3 4 5
26. The interface design uses similar control icons for all types of media and over all web pages.  1 2 3 4 5
27. Background and foreground colors are relevant with each other (no interference).  1 2 3 4 5
28. Text formatting techniques (e.g., Bold, Italic, and Underline) are used consistently.  1 2 3 4 5
29. I am satisfied with the user interface layout and design.  1 2 3 4 5

**C. Navigation tools**

30. The navigation design connected all related information in a sequence that made sense to me.  1 2 3 4 5
31. The site map is helpful.  1 2 3 4 5
32. Links showed clearly the relationship between all pages of the site and the currently viewed page.  1 2 3 4 5
33. External links were loaded in a separate window.  1 2 3 4 5
34. The “skip to main content” link was included at the top of each page (no dead-end pages).  1 2 3 4 5
35. Local search engines are productive.  1 2 3 4 5
36. I am satisfied with my browsing over the class web site  1 2 3 4 5

**D. Information Architecture (Structure)**

37. Headings are created effectively.  1 2 3 4 5
38. The site’s information is positioned according to priority.  1 2 3 4 5
39. Links are kept separated from narrative text blocks (links are placed at the beginning or end of text blocks).  1 2 3 4 5
40. Links labels are matching the titles of the pages to which they refer.  1 2 3 4 5
41. Title tags describe page content appropriately.  1 2 3 4 5
42. Graphs and diagrams are used adequately for clarifying concepts.  1 2 3 4 5
43. Site structure is organized to minimize the number of levels below the homepage (pages are not structured far from the main user interface).  1 2 3 4 5
44. Site’s content and subject matter are consistent with the keywords and key phrases used in search engines.  1 2 3 4 5
45. I am satisfied with the design of the site’s information architecture.  1 2 3 4 5

### Section 3: Pedagogical Usability Evaluation

Pedagogy is the profession, science, or theory of teaching. Pedagogical Usability refers to the tools, content, interface and the tasks of the web-based learning environments that support various learners to learn in various learning contexts according to selected pedagogical objectives.

### A. Structure/Organization

<p>| | | | | | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>

</thead>
<tbody>
<tr>
<td>59. Topics are presented in a logical and ordered manner.</td>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
<td>5</td>
</tr>
<tr>
<td>60. Hierarchies of content are designed of breadth rather than depth (no more than three levels in each paragraph).</td>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
<td>5</td>
</tr>
<tr>
<td>61. The organization of course topics facilitate my exploration of the course.</td>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
<td>5</td>
</tr>
<tr>
<td>62. No gaps in structuring the information.</td>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
<td>5</td>
</tr>
<tr>
<td>63. The help is structured productively.</td>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
<td>5</td>
</tr>
<tr>
<td>64. I am satisfied with the course structure.</td>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
<td>5</td>
</tr>
</tbody>
</table>

### B. Content

<p>| | | | | | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>65. The objectives of each lesson (topic, assignment, etc.) are stated clearly.</td>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
<td>5</td>
</tr>
<tr>
<td>66. A complete syllabus of the course was available ahead of learning.</td>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
<td>5</td>
</tr>
</tbody>
</table>
67. The syllabus is helpful.  
68. Content is built upon my prior knowledge.  
69. The content encompasses all stated objectives (both theory and practice).  
70. The content is rich with multimedia components.  
71. I am satisfied with the course content.  

C. Interaction  

72. Which of the following communication devices were available on your class Web site?  
□ Email  □ Bulletin board (Discussions)  □ Chat  □ Forum  □ All mentioned  

73. How often did you typically use email to contact your lecturer during this course?  
A. Daily  B. Weekly  C. Once a month  D. Once per term  E. Never  F. No answer  

74. How often did you typically use the bulletin board to communicate with your lecturer during the time this unit was running?  
A. Daily  B. Weekly  C. Once a month  D. Once per term  E. Never  F. No answer  

75. Lecturers frequently schedule specific chat times and conversational spaces (the purpose is to discuss course topics, and to reflect on ideas and learning experiences).  
1 2 3 4 5  

76. Progress reports, assignments feedback, etc. are frequently communicated to me.  
1 2 3 4 5  

77. I feel satisfied with the reaction I got in this class web site.  
1 2 3 4 5  

D. Learner control  

78. I have the opportunity to spend as much time as I want or need learning the material.  
1 2 3 4 5  

79. I have the opportunity to control over the media elements.  
1 2 3 4 5  

80. I have always the feeling that I am responsible for my own learning.  
1 2 3 4 5  

81. I have access to online lecturer’s notes.  
1 2 3 4 5  

82. I feel satisfied with my control over learning this course.  
1 2 3 4 5  

E. Cooperative/Collaborative Learning  

83. Much of learning sessions take place in groups.  
1 2 3 4 5  

84. I frequently participate in online discussion with other team members.  
1 2 3 4 5  

85. I frequently communicate with my classmates (via email, bulletin boards, and chat line).  
1 2 3 4 5  

86. The class web site authorized me to know what other learners have been doing in the learning material (e.g., which topics have been read the most or assignments that have been the most popular, etc.)  
1 2 3 4 5  

87. I feel satisfied with the cooperative/collaborative learning techniques being conducted in this course.  
1 2 3 4 5
### F. Goal Orientation

<p>| | | | | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>88. The objectives are built using simple language.</td>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
</tr>
<tr>
<td>89. The objectives state clearly what skills are required in order to reach each goal.</td>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
</tr>
<tr>
<td>90. The objectives show clearly what I’m going to know (or learn) after having the course.</td>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
</tr>
<tr>
<td>91. The objectives show clearly what kind of assessment I am going to have at the end of semester.</td>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
</tr>
<tr>
<td>92. Special behavioral objectives are identified adequately (I got to know about behavior for success, failure and dishonesty in the class).</td>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
</tr>
</tbody>
</table>

### G. Applicability

<p>| | | | | |</p>
<table>

<tbody>
<tr>
<td>93. The course topics accommodate different learning styles.</td>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
</tr>
<tr>
<td>94. This course teaches me indeed the skills that I will need.</td>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
</tr>
<tr>
<td>95. The available examples in the course are helpful when performing assignments.</td>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
</tr>
<tr>
<td>96. Learning is conducted through the base “learning by doing” using methods that involve practical tasks.</td>
<td>1</td>
<td>2</td>
<td>3</td>
<td>4</td>
</tr>
<tr>
<td>97. I feel that this course has been designed for me.</td>
<td>1</td>
<td>2</td>

<td></td>
</tr>
</tbody>
</table>

| 129. | Text alternatives are provided for any non-text content (so that it can be changed into other forms people need, such as large print, braille\(^3\), speech, symbols or simpler language). |

| 130. | Synchronized alternatives were provided for multimedia (such as captions, audio descriptions, sign language, etc.) |

| 131. | Content is flexibly presented in different ways without losing information or structure (e.g., spoken aloud, simpler layout, etc.). |

| 132. | Content is presented in a way that is visible and hearable. |

### B. Operable Interface

| 133. | Most user interface functionalities are available from the keyboard. |

| 134. | The presented content was very concise, quiet, and understandable which has avoided causing seizures (e.g., flashes). |

| 135. | I am provided with flexible ways to find content, orient myself in it and navigate through it. |

### C. Understandable Content

| 136. | Text content is readable and understandable (abbreviations, pronunciations, etc). |

| 137. | I can predict the Web page appearance and operation. |

### D. Robust-Content

| 138. | Content can be interpreted reliably by a wide variety of user agents, including assistive technologies |

| 139. | Content is accessible (or accessible alternative is provided). |

Section 6: Added Value Evaluation

**Added values** point to those new qualities of learning which come alive because of using digital techniques such like computers, WWW, digital learning material, etc. However, the idea of “added value” results not only from using the digital techniques alone but also from that magnificent sharing between the high efficiency techniques of learning and digital techniques.
