## ACKNOWLEDGEMENT

First and foremost I would like to thank the Governor of Bank Negara Malaysia for his consent to allow me to undertake this interesting study. This study has been very useful and beneficial to me, not only in the sense that I have been able to produce this Graduation Exercise, but also in the sense that it has given me a clearer view of the problems and difficulties of Personnel Policies and Practices of the Bank. I am sure the experience and the knowledge I have received as a result of this study would be of immense value and help to me in my career with Bank Negara Malaysia later on.

Secondly, I would like to thank all members of the Staff of Bank Negara Malaysia who have helped me in one way or another during the course of my study. Particularly I would like to thank the Manager of the Establishment Department and members of his staff for their co-operation and considerable help.

Thirdly, I would like to thank Inche Din Merican of the Establishment Department of Bank Negara Malaysia for his personal interest in my work and for his constructive criticisms.

Last but not least, I would like to thank Professor H.C. Wilkinson and Mr. K.S. Nijhar of the Economics Department of the University of Malaya for their invaluable advice, comments, criticisms and suggestions without which, I am sure this Graduation Exercise may have not taken the present form.

August 1965.
