

ACKNOWLEDGMENTS

I am heartily thankful to my supervisor, Dr Pozi Milow, and Prof Ong Hean Chooi whose encouragement, guidance and support from the initial to the final level enabled me to develop an understanding of the subject.

Lastly, I offer my regards and blessings to all of those who supported me especially my wife, Wan Aida Wan Mat Noh and my family in any respect during the completion of the project. Also, I would like to dedicate this work in memory to my beloved father and mother who had enriched my lives with their loves and care.
