List of tables.....	4
List of figures.....	5
1. Introduction.....	6
1.1. Purpose and significance of study.....	6
1.2. Research questions & research objectives.....	7
1.3. Scope of the study	8
1.4. Organization of study.....	8
2. Literature Review	10
2.1. Quality, its introduction	10
2.2. Quality management.....	11
2.3. The development on measures of quality management.....	14
2.4. Quality management and business results (performance measurement).....	24
2.5. Quality management, organizational culture and innovativeness.....	29
2.6. Quality management and innovation performance	33
2.7. Types of methodology.....	43
2.7.1. Choices of Statistical Analysis for construct validation	43
2.7.2. Choices of Sampling design	45
3. Research Methodology	47
3.1. Framework.....	47
3.2. Hypothesis development	47
3.3. Research instrument.....	48
3.4. Samples' sources.....	54
3.5. Data collection procedure.....	54
3.6. Data analysis techniques.....	55
3.6.1. Assumption of Normality, its verification.....	55
3.6.2. Calculation of means of means for each factor of quality management practices	55
3.6.3. Construct validity testing to establish unidimensionality of factors: Factor analysis	55
3.6.4. Construct validity testing in reliability : Reliability analysis.....	56
3.6.5. Multiple regression analysis.....	56
3.6.6. Correlation analysis, bivariate and partial.	57

4.	Research Results.....	59
4.1.	Respondent profile.....	59
4.1.1.	Demographics.....	59
4.1.2.	Variables subjected to hypothesis testing.....	62
4.1.3.	Normality tests for factors of all variables.....	63
4.1.4.	Level of implementation for quality management practices through mean of means calculation.....	64
4.1.5.	Factor analysis for all variables.....	66
4.1.6.	Reliability analysis.....	67
4.2.	Analyses of measures.....	68
4.2.1.	Multiple Regression Analysis.....	68
4.2.2.	Pearson Correlation analysis.....	70
4.3.	Summary of research result.....	74
4.4.	Testing of hypothesis.....	77
5.	Conclusion and recommendations.....	83
5.1.	Summary and conclusion.....	83
5.2.	Limitations of study.....	85
5.3.	Suggestions for future research.....	85
5.4.	Implications.....	86
	References.....	88
	Appendix.....	95
	Appendix 1 : Q-Q plots for quality management practices, organizational culture and organizational performance factors.....	95
	Appendix 2 Factor analysis for Quality Management Practices' factors.....	100
2.1.	Top Management Support factor.....	100
2.2.	Quality information availability factor.....	101
2.3.	Quality information usage factor.....	103
2.4.	Employee training factor.....	104
2.5.	Employee involvement factor.....	105
2.6.	Product or process design factor.....	107
2.7.	Supplier quality factor.....	109
2.8.	Customer orientation factor.....	112
	Appendix 3 : Factor analysis output for all factors of Organizational culture.....	116
3.1.	Factor analysis for Group factor.....	116
3.2.	Factor analysis for development factor.....	117

3.3.	Factor analysis for hierarchical factor.....	118
3.4.	Factor analysis for rational factor.....	119
Appendix 4 : Factor analysis for factors of Organizational performance		121
4.1.	Factor analysis for product quality	121
4.2.	Factor analysis for process quality.....	122
4.3.	Factor analysis for product innovation.....	123
4.4.	Factor analysis for process innovation	124
Appendix 5 : summary of output for all factor analysis.....		126
Appendix 6 : questionnaire for data collection		129

List of tables

List	Content	Page number
Table 3.1	Table containing factors for variable Quality management practices and its corresponding items alongside with their codes.	49
Table 3.2	Table containing factors for variable Organizational culture and its corresponding items alongside with their codes.	52
Table 3.3	Factors for variables of organizational performance, with their corresponding items and codes.	53
Table 4.1	Core businesses demographics	60
Table 4.2	Summary of skewness and kurtosis for factors of quality management practices	63
Table 4.3	Summary of skewness and kurtosis for factors of organizational culture	63
Table 4.4	Summary of skewness and kurtosis for organizational performance factors	64
Table 4.5	Mean of means calculation for respondents under each factors of quality management practices	65
Table 4.6	Summary of Cronbach alpha's values for all factors under each variable.	68
Table 4.7	Summary of multiple regression analysis between variables quality management practices, organizational culture and organizational performance	69
Table 4.8	Summary of multiple regression analysis between variables quality management practices, organizational culture and innovation performance, with the proposed mediator being organizational culture.	69
Table 4.9	Summary of multiple regression analysis between variables quality management practices, organizational culture and quality performance.	70
Table 4.10	Correlation coefficients for quality management practices, organizational culture, and organizational performance. (first stage)	71
Table 4.11	Correlation analysis between quality management practices, organizational culture, quality performance and innovation performance (second stage)	72
Table 4.12	Summary of correlation coefficients for quality management practices and organizational performance, with organizational culture acting as a control	73
Table 4.13	Summary of correlation coefficients for quality management practices, innovation performance and quality performance, with organizational culture as a control.	73

List of figures

Content	Page number
Figure 3.1 : Figure above showing the relationship between independent variables and dependant variables.	47
Figure 4.1 : descriptive statistics' charts for five demographic factors, namely core business, age of company, last annual sales turnover, number of employees, and type of company ownership.	57 to 59
