

## ACKNOWLEDGEMENT

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

In the name of God, the most gracious, the most merciful

First and foremost, I would like to express my heartiest thanks and gratitude to my supervisors; Prof. Dr. Noorsaadah Abd. Rahman and Prof. Dr. Rohana Yusuf, for their guidance and support throughout the completion of this project. I thank them sincerely.

I am also very grateful to these individuals; Dr. Lee Yean Kee for his considerable help in NMR work, Heh Choon Han for the NS2B-NS3 protease expression as this project would not have been possible without him and Mr. Khairy Mohamad Nor for all his technical advices and support.

My special thanks to my friends, especially those in the Molecular Biology Laboratory, Dr. Hussin Alwan Rothan, Dr. Shatrah Othman, Nadia Yaacob, Shafina Habib, Tan Eng Chong, Rufaidah Othman, and the entire staff of the Molecular Medicine department, for all their considerable help and encouragement, and also for making my days at the department full of meaningful memories. Also, special thanks to members of the Drug Design and Development Research Group (DDDRG), thank you for making all of this worthwhile.

Above all, my greatest and special thanks to my family especially my father Yasir AbdulRahman Mohmmmod and my mother Rafal Fakhri Yahaya, the most important people in my life. Thank you for always believing in me and for the endless prayers for my success and happiness. Your unconditional love has given me eternal strength to face all the ups and downs in life. To my sisters and my only brother thank you for believing in your brother.

Last but not least, special thanks to my trusted friend, Dr. Suhaeb Abdulrazzaq Mahmood for always being there for me and for being just who you are- thank you, from the bottom of my heart.
