

Figure 27: Ellipsoidal plot of C9 with 50% level of probability. The atomic coordinates were given in the Appendix on page 237.

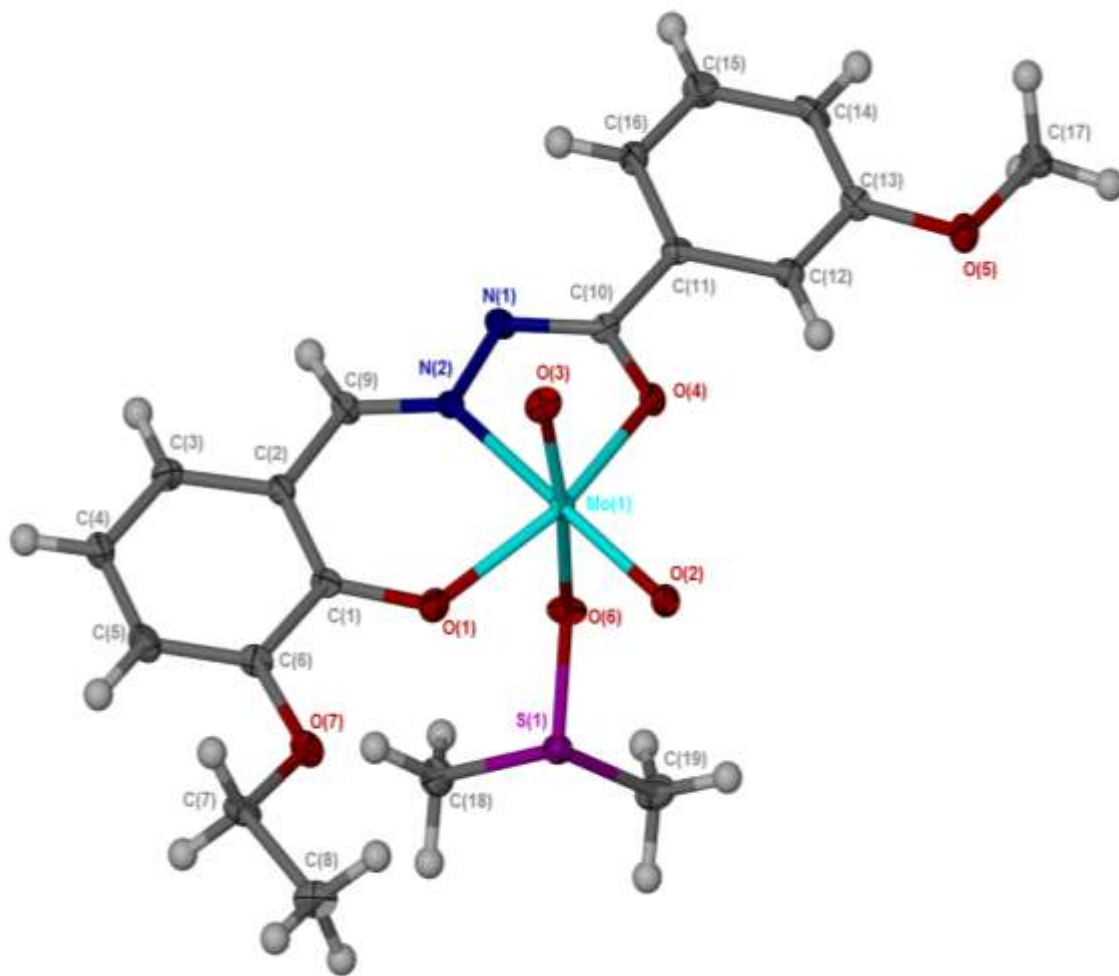

Figure 28: Ellipsoidal plot of C10 with 50% level of probability. The atomic coordinates were given in the Appendix on page 238.

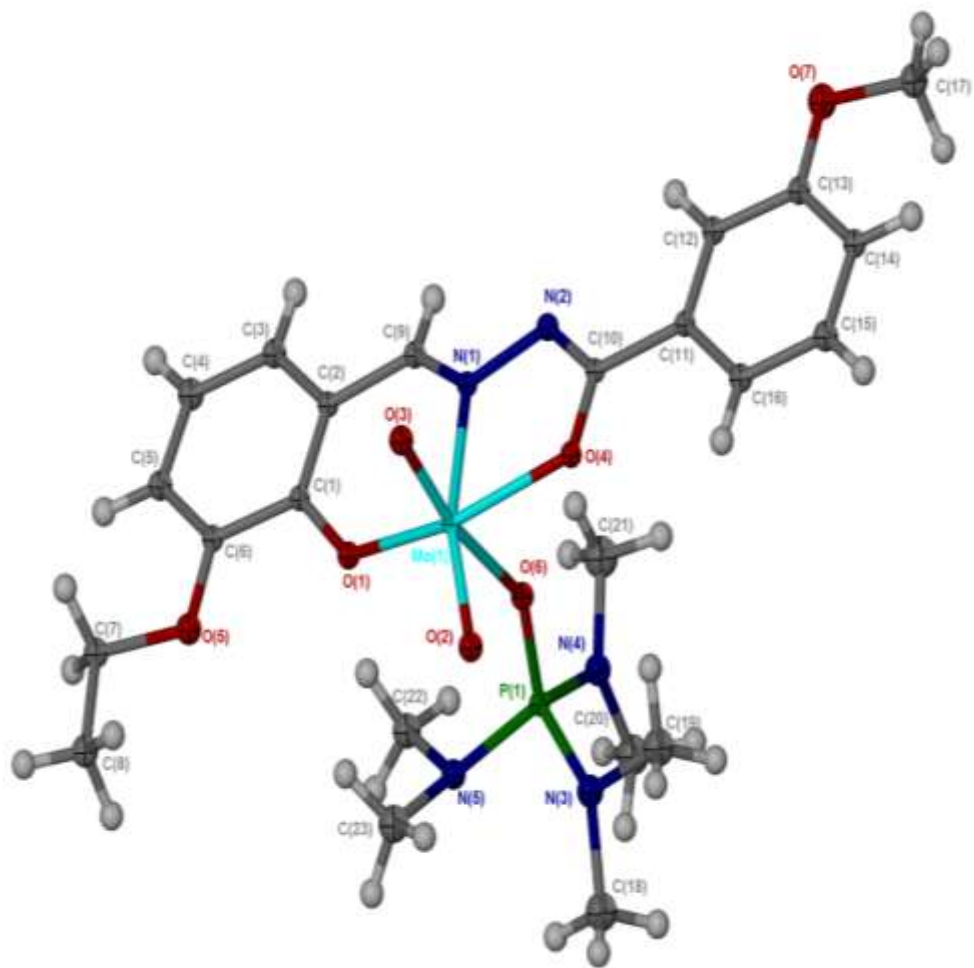

Figure 29: Ellipsoidal plot of C11 with 50% level of probability. The atomic coordinates were given in the Appendix on page 239.

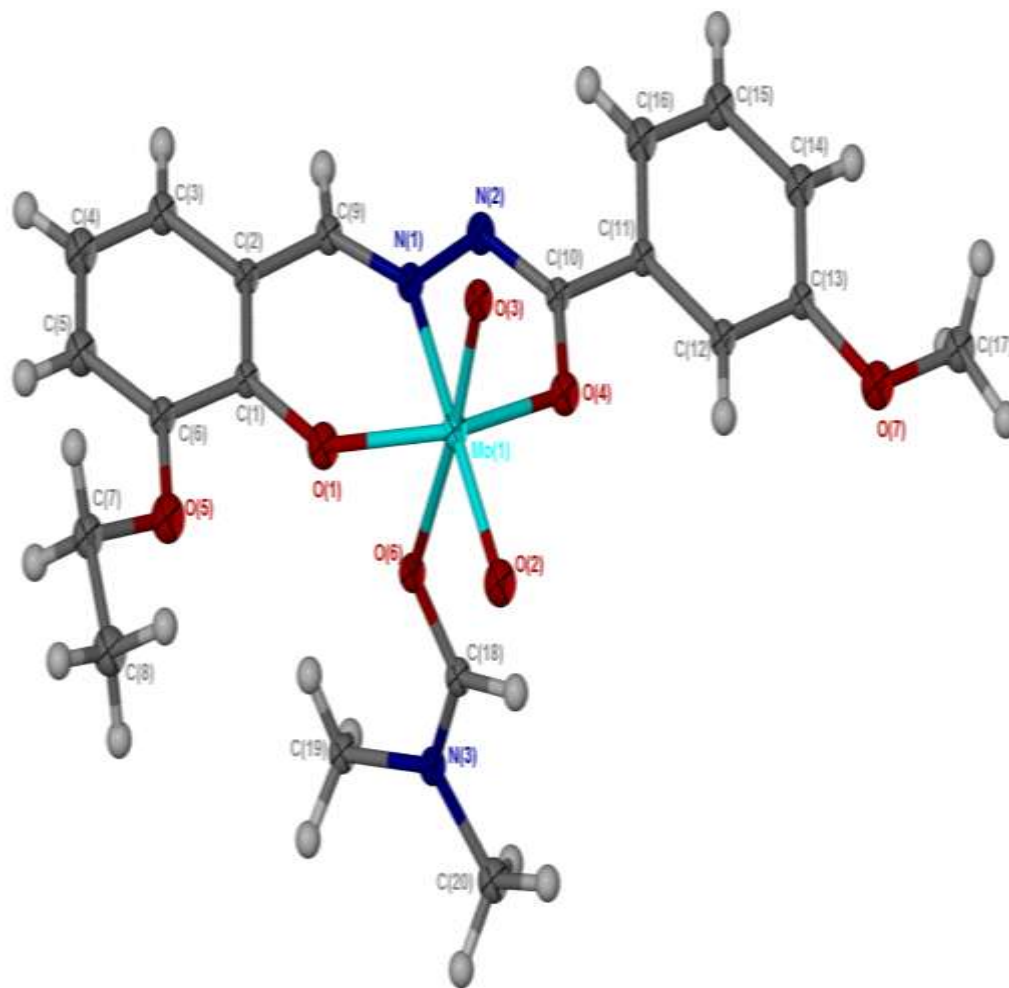

Figure 30: Ellipsoidal plot of C12 with 50% level of probability. The atomic coordinates were given in the Appendix on page 239.

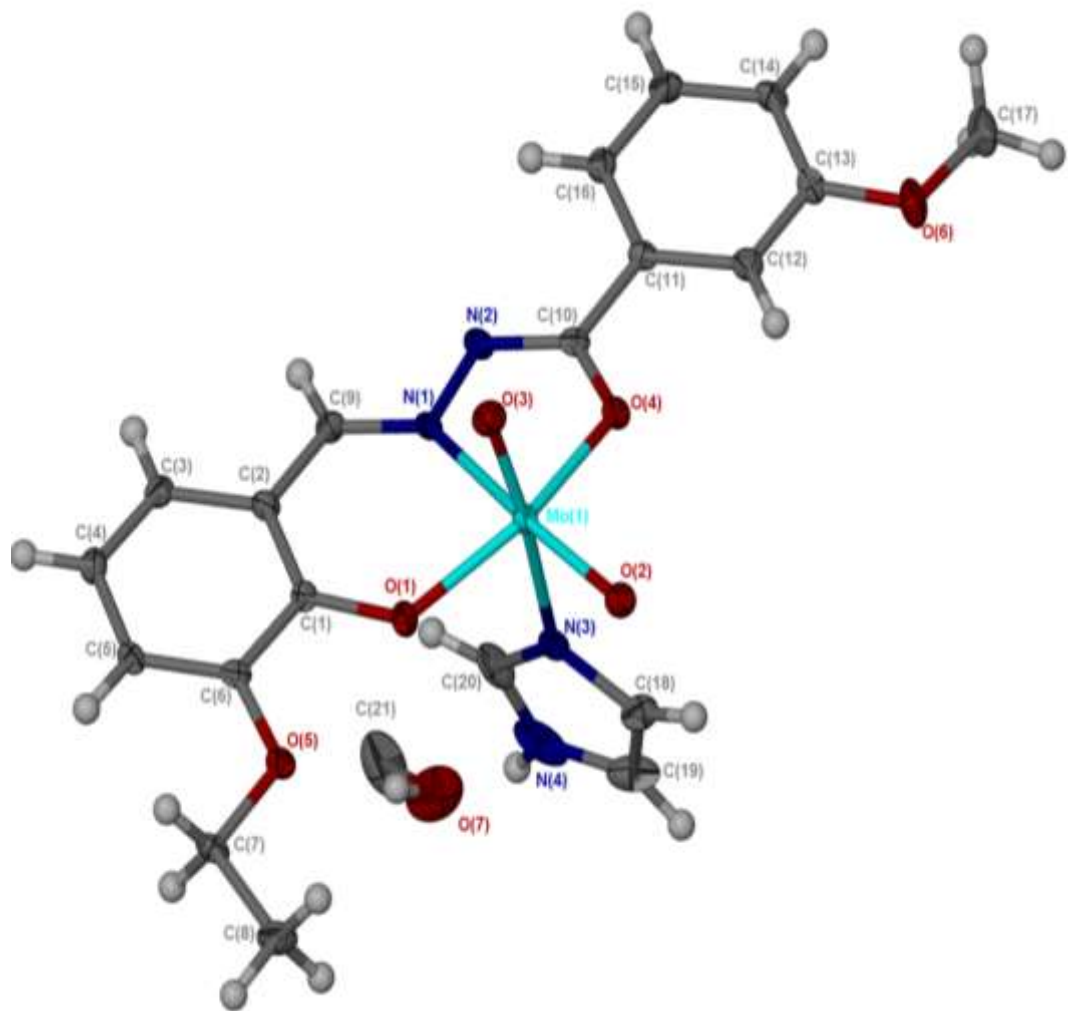

Figure 31: Ellipsoidal plot of C13 with 50% level of probability. The atomic coordinates were given in the Appendix on page 240. The methyl hydrogen atoms of the methanol were omitted.

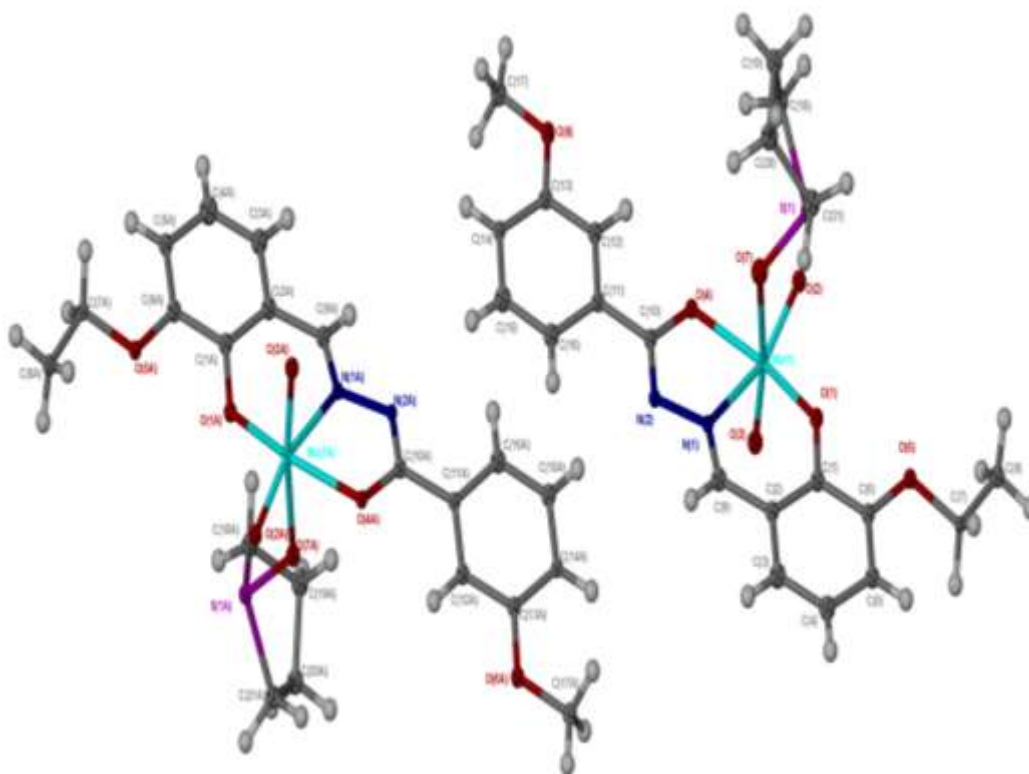

Figure 32: Ellipsoidal plot of C14 with 50% level of probability. The atomic coordinates were given in the Appendix on page 241.
