ACKNOWLEDGEMENT

The writing and completion of this project would have been difficult if not for the immense guidance and support from several individuals whom without their perpetual assistance and encouragement helped in the sucessful completion of this thesis.

My deeply indebted gratitude to my supervisor Dr.Salmah Ismail for her priceless insights, guidance, patience and support throughout the conduct of this project.

Special thanks to all my lecturers for giving me all the support and knowledge.

I would like to convey my appreciation and gratitude to all Science Programme's staff for their willingness to share experiences and knowledge.

To my friends and family for their love and support .Especially Pouya Darvish for his advice and assistance which was a great help during the research.
