

LIST OF PLATES

	Page	
Plate 3.1	Active cells and some industrial waste disposed at Panchang Bedena.	123
Plate 3.2	The disposal of highly mixed wastes in KHT landfill.	124
Plate 3.3	Gas pipes at Kampung Hang Tuah landfill.	124
Plate 3.4	Material recovery by the scavengers from the KHT landfill's waste stream.	124
Plate 3.5	Recovered materials collected from waste disposed in Kundang landfill during its operation.	125
Plate 3.6	Scavenging activities in Kundang landfill prior to its closure in February 2006.	125
Plate 3.7	Some industrial waste disposed at Sungai Sedu landfill	126
Plate 3.8	Waste cell and gas pipe at Ampar Tenang landfill.	127
Plate 3.9	Waste disposed at Bukit Beruntung landfill and the illegal dumping along the way to Bukit Beruntung landfill.	127
Plate 3.10	Recovered materials from Bukit Beruntung landfill.	128
Plate 3.11	Wastes were dumped and pushed into the ravine at Kerling landfill.	128
Plate 3.12	Closing of Kerling landfill for the railroad construction.	129
Plate 3.13	Waste disposal at Hulu Yam Bharu landfill.	129
Plate 3.14	Scavenging activities by human and animals at Hulu Yam Bharu landfill.	129

Plate 3.15	Active cells releasing leachate into the pond	130
Plate 3.16	Scavenging activities in Sungai Kembong.	130
Plate 3.17	Waste sorting at Kundang landfill	132
Plate 3.18	Worms used in the vermi-composting trials.	135
Plate 3.19	Shredded and palletized samples from various waste types.	138
Plate 3.20	Microbial cocktails used in the biological treatment of leachate.	139
Plate 3.21	Set-up for methane oxidation studies	141
Plate 3.22	Fungal and insect problem in VCS1.	170
Plate 3.23	Juvenile worms collected in the vermi-composting plates.	172
Plate 3.24	Vermi-compost produced in VCS1 and VCS2.	174
Plate 3.25	Some of the leachate collection points in Kundang disposal site.	187
Plate 3.26	Raw and treated leachates.	188
