Abstract	i
Abstrak	ii
Acknowledgement	iii
Table of Contents	iv
List of Figures	viii
List of Tables	xi
List of Symbols and Abbreviations	xiii

## INTRODUCTION

1.1	Indole, Schiff Base and Organometallic Compounds	1
1.2	Neuroprotective Effect	5
1.3	Peptic Ulcer and Complications	7
1.4	Physical and Physiological Properties of Alcohol (Ethanol)	11
1.5	Diabetes Mellitus and Its Complications	12
1.6	Present Studies	15

## EXPERIMENTAL METHODOLOGY

2.1	Chemicals	16
2.2	Instrumentation	
2.2.1	Infra Red (IR)	16
2.2.2	Nuclear Magnetic Resonance (NMR)	16
2.2.3	UV-Visible	17
2.2.4	Elemental Analyses	17
2.2.5	Magnetic Susceptibility	17

2.2.6	Melting Point	17
2.2.7	Measurement of pH	17
2.2.8	X-ray Crystallographic Data Collection	18
2.3	Animals	18
2.4	Syntheses	
2.4.1	Synthesis of Ligands (L1, L2 and L3)	18
2.4.2	Synthesis of Copper(II) and Nickel(II) Complexes	19
2.5	Biological Activity Studies	
2.5.1	Neuroprotective screening ( <i>in vitro</i> )	
2.5.1.1	Culture of NG108-15 cells	20
2.5.1.2	Cell viability assay	21
2.5.1.3	Neuroprotective activity studies	21
2.5.2	Acute Toxicity Test ( <i>in vivo</i> )	22
2.5.3	Anti-Ulcerogenic Screening on Ethanol-Induced Gastric Ulcer ( <i>in vivo</i> )	22
2.5.4	Glucose Tolerance Test ( <i>in vivo</i> )	23

## RESULTS AND DISCUSSIONS

3.1	Characterization of Compounds	
3.1.1	Physical Properties	24
3.1.2	Elemental Analyses	25
3.1.3	Interpretation of Infra Red (IR) Spectra	26
3.1.4	Interpretation of Nuclear Magnetic Resonance (NMR) Spectra	29
3.1.5	Interpretation of UV-Visible Spectra	30
3.1.6	Magnetic Susceptibility	36
3.1.7	X-ray Crystallography	

3.1.7.1	Crystal Structure of 2 $\phi$ [(1 <i>H</i> -indol-3-yl)methylene]-2-(1 <i>H</i> -indol-3-yl)acetohydrazide (L1)	38
3.1.7.2	Crystal Structure of 2 $\phi$ [(5-chloro-1 <i>H</i> -indol-3-yl)methylene]-2-(1 <i>H</i> -indol-3-yl)acetohydrazide (L2)	39
3.1.7.3	Crystal Structure of 2 $\phi$ [(5-bromo-1 <i>H</i> -indol-3-yl)methylene]-2-(1 <i>H</i> -indol-3-yl)acetohydrazide (L3)	40
3.1.7.4	Crystal Structure of bis{2 $\phi$ [(1 <i>H</i> -indol-3-yl)methylene]-2-(1 <i>H</i> -indol-3-yl)acetohydrazido- <sup>2</sup> N,O}nickelate (NiL1)	41
3.1.7.5	Crystal Structure of bis{2 $\phi$ [(5-chloro-1 <i>H</i> -indol-3-yl)methylene]-2-(1 <i>H</i> -indol-3-yl)acetohydrazido- <sup>2</sup> N,O}nickelate (NiL2)	42
3.1.7.6	Crystal Structure of bis{2 $\phi$ [(5-bromo-1 <i>H</i> -indol-3-yl)methylene]-2-(1 <i>H</i> -indol-3-yl)acetohydrazido- <sup>2</sup> N,O}nickelate (NiL3)	43
3.2	Biological Studies	
3.2.1	Neuroprotective Screening Test	44
3.2.2	Acute Toxicity Test	47
3.2.3	Ethanol-Induced Gastric Ulcer	
3.2.3.1	Gastroprotective Effect of L1 and its Complexes	48
3.2.3.2	Gastroprotective Effect of L2 and its Complexes	53
3.2.3.3	Gastroprotective Effect of L3 and its Complexes	56
3.2.3.4	Percentage Inhibition in Ethanol-Induced Gastric Ulcer	58
3.2.4	Glucose Tolerance Test	
3.2.4.1	Percentage of Change in Blood Glucose Level	62
3.2.4.2	Blood Glucose Level after Pretreatment with L1 and its Complexes	65

3.2.4.3 Blood Glucose Level after Pretreatment with L2 and its Complexes	67
3.2.4.4 Blood Glucose Level after Pretreatment with L3 and its Complexes	69
CONCLUSION	71
