

LIST OF FIGURES

1.1	Electrical power transmission system	2
2.1	Simple DC circuit with current measurement	16
2.2	DC circuit with two current measurements	18
2.3	General state estimation solution algorithm	29
3.1	State estimation orthogonal decomposition algorithm	40
4.1	6-bus test system with measurements	42
4.2	Convergence comparison of orthogonal decomposition via Householder transformation method versus the Hybrid method for the 6-bus test system	48
4.3	IEEE 30-bus test system	49
4.4	Convergence comparison of orthogonal decomposition via Householder transformation method versus the Hybrid method for the IEEE 30-bus test system	55
4.5	30-bus Sumatera Barat power system	58
4.6	Convergence comparison of orthogonal decomposition via Householder transformation method versus the Hybrid method for the 30-bus Sumatera Barat power system	64
5.1	Conceptual view of real time power system modeling and state estimation	69
