List of Figures.....	xiv
List of Tables.....	xvii

## **CHAPTER ONE: INTRODUCTION**

1.1 Preface.....	1
1.2 Aims and objectives of study.....	4
1.3 Previous studies of Quaternary vertebrate fossils from Southeast Asia.....	5
1.4 Previous studies of vertebrate fossils from Peninsular Malaysia.....	9
1.5 Quaternary geology of Peninsular Malaysia.....	12
1.6 Distribution of non-marine mammals in Peninsular Malaysia.....	16

## **CHAPTER TWO: METHODOLOGY AND PROJECT SITES**

2.1 Preparatory work in the field.....	27
2.2 Preparatory work in the laboratory.....	27
2.2.1 Macrovertebrate fossils.....	27
2.2.2 Microvertebrate fossils.....	28
2.3 Comparison and identification.....	29
2.4 Results.....	29
2.5 Dating.....	30
2.6 Fossil localities .....	31
2.6.1 Batu Caves Massif (central West Peninsular Malaysia).....	33
2.6.1.1 Cistern Cave.....	35
2.6.1.2 Swamp Cave.....	41
2.6.1.3 Villa Cave.....	44
2.6.1.4 Dark Cave.....	47
2.6.2 Lenggong Valley, Perak (northern West Peninsular Malaysia).....	49
2.6.2.1 Badak Cave C.....	50
2.6.2.2 Ngaum Cave.....	59
2.6.2.3 Other sites in Lenggong Valley, Perak.....	60
2.6.3 Kinta Valley (northern West peninsular Malaysia).....	61
2.6.3.1 Tambun.....	63
2.6.3.2 Naga Mas Cave (Gold Dragon Cave).....	64
2.6.3.3 Other sites in Kinta Valley.....	67

## CHAPTER THREE: MACROVERTEBRATE FOSSILS

3.1 Introduction.....	68
3.2 ORDER PRIMATES Linnaeus, 1758.....	69
3.2.1 Family Cercopithecidae Gray, 1821.....	69
3.2.1.1 Subfamily Cercopithecinae Gray, 1821.....	70
3.2.1.1.1 Teeth description.....	73
A. <i>Macaca fascicularis</i> in Batu Caves.....	73
B. <i>Macaca nemestrina</i> in Batu Caves.....	75
C. <i>Macaca nemestrina</i> in Lenggong Valley.....	76
3.2.1.1.2 Remarks.....	77
3.2.2 Family Hominidae Gray, 1825.....	84
3.2.2.1 Subfamily Ponginae Elliot, 1913.....	84
3.2.2.1.1 Teeth description.....	88
A. <i>Pongo</i> in Batu Caves.....	88
B. <i>Pongo</i> in Lenggong Valley.....	97
3.2.2.1.2 Remarks.....	102
3.2.2.1.3 A new chronology for <i>Pongo</i> in Peninsular Malaysia.....	111
3.3 ORDER RODENTIA Bowdich, 1821.....	114
3.3.1 Family Hystricidae Fischer, 1817.....	114
3.3.1.1 Teeth description.....	118
A. <i>Atherurus macrourus</i> in Batu Caves.....	118
B. <i>Atherurus macrourus</i> in Lenggong Valley.....	118
C. <i>Hystrix brachyura</i> in Lenggong Valley.....	120
D. <i>Hystrix</i> sp. indet. in Lenggong Valley.....	121
3.3.1.2 Remarks.....	121
3.4 ORDER CARNIVORA Bowdich, 1821.....	127
3.4.1 Family Ursidae Fischer, 1817.....	127
3.4.1.1 Subfamily Ursinae Fischer, 1817.....	128
3.4.1.1.1 Teeth description.....	130
A. <i>Helarctos malayanus</i> in Batu Caves.....	130
B. <i>Helarctos malayanus</i> in Lenggong Valley.....	132
C. <i>Ursus thibetanus</i> in Batu Caves.....	133
D. <i>Ursus thibetanus</i> in Lenggong Valley.....	135
3.4.1.1.2 Remarks.....	136
3.4.2 Family Viverridae Gray.....	149
3.4.2.1 Subfamily Viverrinae Gray, 1821.....	149
3.4.2.1.1 Tooth description.....	152
3.4.2.1.2 Remarks.....	153
3.4.3 Family Canidae G. Fischer de Waldheim, 1817.....	155
3.4.3.1 Subfamily Caninae G. Fischer de Waldheim, 1817.....	156

# CONTENTS

# Pages

3.4.3.1.1 Teeth description.....	159
A. Canids in Batu Caves.....	159
3.4.3.1.2 Remarks.....	161
3.4.4 Family Felidae G. Fischer de Waldheim, 1817.....	164
3.4.4.1 Subfamily Pantherinae Pocock, 1917.....	165
3.4.4.1.1 Tooth description.....	167
3.4.4.1.2 Remarks.....	168
3.5 ORDER PERISSODACTYLA Owen, 1848.....	171
3.5.1 Family Tapiridae Gary, 1821.....	171
3.5.1.1 Tooth description.....	173
3.5.1.2 Remarks.....	174
3.5.2 Family Rhinocerotidae Gray, 1821.....	176
3.5.2.1 Teeth description.....	179
A. <i>Dicerorhinus sumatrensis</i> in Batu Caves.....	180
B. <i>Rhinoceros</i> / <i>Dicerorhinus</i> sp. indet. in Batu Caves.....	181
C. <i>Rhinoceros</i> / <i>Dicerorhinus</i> sp. indet. in Lenggong Valley.....	182
D. <i>Rhinoceros</i> sp. in Lenggong Valley.....	183
3.5.2.2 Remarks.....	183
3.6 ORDER ARTIODACTYLA Owen, 1848.....	193
3.6.1 Family Suidae Gray, 1821.....	193
3.6.1.1 Eurasian Wild Pig <i>Sus scrofa</i> Linnaeus, 1758.....	194
3.6.1.2 Bearded Pig <i>Sus barbatus</i> Müller, 1838.....	194
3.6.1.3 Teeth description.....	202
A. <i>Sus Scrofa</i> in Batu Caves.....	202
B. <i>Sus barbatus</i> in Batu Caves.....	207
C. <i>Sus</i> cf. <i>barbatus</i> in Batu Caves.....	208
D. <i>Sus scrofa</i> in the Lenggong valley.....	210
E. <i>Sus</i> sp.....	215
3.6.1.4 Broken teeth of Pig.....	218
3.6.1.5 Present distribution of Bearded Pig.....	219
3.6.1.6 Remarks.....	225
3.6.2 Family Cervidae Goldfuss, 1820.....	232
3.6.2.1 Subfamily Muntiacinae Pocock, 1923.....	233
3.6.2.1.1 Teeth description.....	235
A. <i>Muntiacus muntjak</i> in Batu Caves.....	235
B. <i>Muntiacus muntjak</i> in Lenggong Valley.....	238
3.6.2.1.2 Remarks.....	239
3.6.2.2 Subfamily Cervinae Goldfuss, 1820.....	243

# CONTENTS

# Pages

3.6.2.2.1 Teeth description.....	246
A. <i>Rusa unicolor</i> in Batu Caves.....	246
B. <i>Rusa unicolor</i> in Lenggong Valley.....	247
3.6.2.2.2 Broken teeth of Deer.....	248
3.6.2.2.3 Remarks.....	248
3.6.3 Family Bovidae Gray, 1821.....	252
3.6.3.1 Subfamily Bovinae Gray, 1821.....	252
3.6.3.1.1 Teeth description.....	255
A. Bovinae in Batu Caves.....	255
B. Bovinae in Lenggong Valley.....	256
3.6.3.1.2 Broken teeth of Bovid.....	258
3.6.3.1.3 Bones.....	259
3.6.3.1.4 Remarks.....	260
3.6.3.2 Subfamily Caprinae Gray, 1821.....	275
3.6.3.2.1 Teeth description.....	276
A. Caprinae in Batu Caves.....	276
B. Caprinae in Lenggong Valley.....	278
3.6.3.2.2 Remarks.....	279
3.7 Unidentifiable teeth/ bone fragments.....	284
 <b>CHAPTER FOUR: MICROVERTEBRATE FOSSILS</b>	
4.1 Introduction.....	285
4.2 Description.....	286
4.3 Order Chiroptera Blumenbach, 1779.....	286
4.3.1 Megachiroptera Dobson, 1875 (Fruit Bats).....	287
A. Megachiroptera gen. et sp. indet.....	287
4.3.2 Microchiroptera Dobson, 1875 (Insectivorous Bats).....	287
A. Microchiroptera gen. et sp. indet.....	287
4.4 Order Scandentia Wagner, 1855.....	287
4.4.1 Family Tupaiidae Gray 1825 (Treeshrew).....	287
A. Tupaiidae gen. et sp. indet.....	288
4.5 Order Insectivora Bowdich, 1821.....	288
4.5.1 Family Soricidae G. Fischer, 1814 (Shrew).....	288
A. Soricidae gen. et sp. indet.....	288
4.6 Order Rodentia Bowdich, 1821.....	289
4.6.1 Family Muridae Gray, 1821.....	289

## CHAPTER FIVE: RE-ASSESSMENT STUDIES; IMPORTANT FOSSIL FINDS

5.1 Introduction.....	301
5.2 First site: Tambun ; Datok Cave and Hooijer's Collection.....	301
5.2.1 Present location of the specimens in Hooijer's Collection.....	303
5.2.2 Description of samples found in Hooijer's Collection.....	304
5.3 Second site: Naga Mas Cave.....	311
5.3.1 What is that fossil?.....	312
5.3.2 Age of fossil.....	312
5.3.3 Present study.....	313
5.3.4 Results of Naga Mas Cave.....	314
A. Mandible and lower dentition.....	314
B. The Skull.....	315
C. Scapula.....	316
D. Right humerus.....	317
E. Rib.....	318
F. Vertebrae.....	318
G. Left humerus.....	319
H. Left ulna.....	320
I. Left tibia.....	320
J. Vertebrae.....	321
K. Pelvises.....	321
5.3.5 Discussion.....	322

## CHAPTER SIX: SUMMARY OF RESULTS AND DISCUSSION

6.1 Interpretation and discussion.....	325
6.2 Morphological and micro morphological analyses.....	326
6.3 Composition of the Batu Caves and Lenggong Valley fauna.....	330
6.4 Dating.....	338
6.5 Contributions of this study to distribution of Late Middle and Late Pleistocene faunas in Southeast Asia.....	339
A) Biochronology.....	339
B) Paleogeographic and biostratigraphic contributions.....	357
6.6 Late Middle and Late Pleistocene migration routes.....	361
6.7 Paleoenvironment.....	366

<b>CONTENTS</b>	<b>Pages</b>
<b>CHAPTER SEVEN: SUMMARY AND SUGGESTIONS</b>	
7.1 Summary.....	371
7.2 Suggestions for further work.....	374
<b>REFERENCES</b> .....	376
<b>PLATES</b> .....	404
<b>APPENDICES</b> .....	421

## LIST OF FIGURES

	<b>Pages</b>
Figure 1.1 The subdivision of the Indomalayan Region.....	3
Figure 1.2 Cenozoic correlation chart for Peninsular Malaysia.....	13
Figure 1.3 Distribution of Cenozoic sediments in Peninsular Malaysia.....	15
Figure 1.4 The relative abundance of the extant non-human land mammals (orders) in Peninsular Malaysia.....	17
Figure 2.1 Location map of the caves studied in Peninsular Malaysia.....	32
Figure 2.2 Batu Caves Massif.....	33
Figure 2.3 Satellite image of four caves studied in Batu Caves Massif.....	36
Figure 2.4 Map and cross sections for Cistern Cave.....	38
Figure 2.5 Lower molar of <i>Sus barbatus</i> (A) and upper molar of <i>Ursus thibetanus</i> (B) samples from Cluster 4, Cistern Cave.....	39
Figure 2.6 Map and cross sections for Swamp Cave.....	42
Figure 2.7 Map and cross sections for Villa Cave.....	45
Figure 2.8 Hammer on limestone block from which sample was collected near entrance of Dark Cave.....	48
Figure 2.9 Satellite image of two caves studied in Lenggong Valley, Perak.	50
Figure 2.10 Regional geology and location of the limestone hills in the Lenggong Valley with locality of Badak Cave C and Ngaum Cave.....	51
Figure 2.11 Charcoal paintings in Badak Cave A, Lenggong Valley, Perak.....	52
Figure 2.12 Map and cross sections for Badak Cave C.....	54
Figure 2.13 Lower premolar of Orangutan ( <i>Pongo</i> sp.) (A) and lower molar of Bovinae (gen.et sp. indet.) (B), both found in lower layer in Cluster 1, Cistern Cave.....	55
Figure 2.14 Unidentified large mammalian bone fossils in Badak Cave C.....	57
Figure 2.15 Map of Ngaum Cave .....	60
Figure 2.16 Satellite image of two caves studied in Kinta Valley .....	63
Figure 2.17 Limestone pinnacle in Lost World of Tambun where Datok Cave is located.....	64
Figure 3.1 <i>Macaca nemestrina</i> (A) and <i>Macaca fascicularis</i> (B).....	71
Figure 3.2 Nomenclature to describe cheek teeth structures of Cercopithecidae	74
Figure 3.3 Bornean Orangutan <i>Pongo pygmaeus</i> with infant.....	86
Figure 3.4 Bornean Orangutan distribution map.....	85
Figure 3.5 Nomenclature to describe the upper cheek teeth (top) and lower cheek teeth (bottom) structures of <i>Pongo</i> .....	90
Figure 3.6 <i>Atherurus macrourus</i> (A) and <i>Hystrix brachyura</i> (B).....	115
Figure 3.7 Nomenclature to describe cheek teeth structures of Hystricidae...	119
Figure 3.8 Malayan Sun Bear (A) and Asiatic Black Bear (B).....	128
Figure 3.9 Nomenclature to describe cheek teeth structures of Ursidae.....	132
Figure 3.10 Range map of <i>Ursus thibetanus</i> and <i>Helarctos malayanus</i> .....	148
Figure 3.11 Malayan Civet <i>Viverra zangalunga</i> .....	151
Figure 3.12 Nomenclature to describe cheek teeth structures of Viverridae..	152
Figure 3.13 Domestic Dog <i>Canis familiaris</i> .....	158
Figure 3.14 Nomenclature to describe the upper molar tooth structures of Canidae	160
Figure 3.15 Tiger individual from camera traps in Jerangau Forest Reserve...	166
Figure 3.16 Adult female MalayanTapir <i>Tapirus indicus</i> .....	172

	<b>Pages</b>
Figure 3.17 <i>Dicerorhinus sumatrensis</i> (A) and <i>Rhinoceros sondaicus</i> (B).....	177
Figure 3.18 Nomenclature to describe cheek teeth structures of Rhinocerotidae	180
Figure 3.19 <i>Sus scrofa</i> (A) and <i>Sus barbatus</i> (B).....	195
Figure 3.20 New systems of tooth wear stages for pigs applied to both the upper and lower teeth of the last premolar and molars.....	201
Figure 3.21 Nomenclature to describe cheek teeth structures of Suidae.....	203
Figure 3.22 Map showing recent and the prehistoric records of Bearded Pig in Peninsular Malaysia.....	222
Figure 3.23 Four isolated <i>ex situ</i> teeth from Badak Cave C (Lenggong Valley) identified as 3 <sup>rd</sup> and 4 <sup>th</sup> upper premolars of <i>Sus scrofa</i> perhaps from one individual showing similar degree of wear and morphological structures between left and right sides.....	232
Figure 3.24 <i>Muntiacus muntjak</i> .....	234
Figure 3.25 Nomenclature to describe cheek teeth structures of Cervidae and Bovidae.....	237
Figure 3.26 Mature male (A) and mature female (B) of <i>Rusa unicolor</i> .....	244
Figure 3.27 Wild Water Buffalo <i>Bubalus arnee</i> .....	253
Figure 3.28 <i>Capricornis sumatraensis</i> from Taiping zoo.....	276
Figure 5.1 Datok Cave.....	302
Figure 5.2 Hooijer's Collection at the National Museum of Malaysia.....	303
Figure 5.3 Occlusal view of <i>Sus</i> sp.....	304
Figure 5.4 Occlusal view of P <sup>4</sup> <i>Rhinoceros sondaicus</i> .....	305
Figure 5.5 Occlusal view of M <sup>3</sup> <i>Rhinoceros sondaicus</i> .....	305
Figure 5.6 Thoracic vertebra of <i>Rhinoceros sondaicus</i> .....	306
Figure 5.6A Width of the thoracic vertebra foramen at the anterior side.....	306
Figure 5.7 Proximal portion of scapula of <i>Rhinoceros sondaicus</i> .....	307
Figure 5.7A Shortest length of the collum scapulae (neck of the scapula).....	307
Figure 5.8 left scaphoid of <i>Rhinoceros sondaicus</i> .....	308
Figure 5.9 left unciform of <i>Rhinoceros sondaicus</i> .....	308
Figure 5.10 Right radius of <i>Hippopotamus</i> sp.....	309
Figure 5.11 Rib fragment of <i>Bibos</i> c.q. <i>Bubalus</i> sp.....	309
Figure 5.12 Part of metapodial perhaps to <i>Bibos</i> .....	310
Figure 5.13 Sketch of Naga Mas Cave showing the vertebrate fossil embedded in the ceiling of the cave and the location of Samples 1 and 2 for dating.....	311
Figure 5.14 General view of the fossil skeleton embedded in the travertine on the ceiling of the Naga Mas Cave.....	312
Figure 5.15 Close up photo and identification of each part of the Naga Mas skeleton.....	313
Figure 5.16 Close up photo of mandible and lower dentition of Naga Mas fossil..	314
Figure 5.17 Close up photo of the skull of Naga Mas fossil.....	316
Figure 5.18 Close up photo of right scapula (A) and left scapula (B) of Naga Mas fossil.....	317
Figure 5.19 Close up photo of right humerus of Naga Mas fossil.....	318
Figure 5.20 Close up photo of rib and vertebrae of Naga Mas fossil.....	318
Figure 5.21 Close up photo of left humerus and left ulna of Naga Mas fossil..	319

Figure 5.22 Close up photo of the proximal and distal end of the left humerus of Naga Mas fossil.....	319
Figure 5.23 Close up photo of left tibia of Naga Mas fossil.....	320
Figure 5.24 (A & B) Close up photo of a group of six vertebrae of Naga Mas fossil.....	321
Figure 5.25 Close up photo of the pelvises of Naga Mas fossil.....	321
Figure 5.26 The supracondyloid foramen exposed on the distal end of the humerus of the Naga Mas fossil (top) and in the cast of this fossil (bottom).....	323
Figure 5.27 The first lower molar (lower carnassial) (A) and the supernumerary tooth behind (B) observed in the Naga Mas fossil.....	324
Figure 6.1 Thin sections of treated samples through Badak Cave C and Swamp Cave Clusters.....	327
Figure 6.2 Thin sections of treated samples through Cistern Cave and Ngaum Cave Clusters.....	328
Figure 6.3 Relative abundance of orders of macrovertebrate teeth fossil at Batu Caves (top) and Lenggong Valley (bottom) in Peninsular Malaysia.....	336
Figure 6.4 Relative abundance of families of macrovertebrate teeth fossil at Batu Caves (top) and Lenggong Valley (bottom) in Peninsular Malaysia.....	337
Figure 6.5 Map of the Southeast Asian biogeographic provinces.....	341
Figure 6.6 Map of the fossil localities included in the present study.....	342
Figure 6.7 The Sunda region of Southeast Asia showing the extent of land area at sea levels 40 m below present.....	362
Figure 6.8 Map of Southeast Asia showing the Sundaland boundaries with the migration routes hypothesis are illustrated by the arrows: (1) continental way, (2) insular way, a: Siva-Malayan route, b: Sino-Malayan route.....	364

## LIST OF TABLES

	<b>Pages</b>
Table 1.1 Extant/ recently extinct non-human land mammals in Peninsular Malaysia.....	18
Table 3.1 Dimensions of the upper and lower teeth attributed to macaques in this study.....	73
Table 3.2 Comparative measurements of well-preserved macaque teeth in this study with other modern and prehistoric material .....	80
Table 3.3 Dimensions of the upper and lower teeth with computed dental crown area attributed to <i>Pongo</i> recovered in this study.....	88
Table 3.4 Published and unpublished computed ranges of dental crown areas (mm <sup>2</sup> ) of modern and fossil <i>Pongo</i> teeth from different sites: number of samples in parentheses with mean and standard deviation.....	105
Table 3.5 Dimensions of the upper and lower teeth attributed to porcupine in this study.....	117
Table 3.6 Comparative measurements of well-preserved porcupine teeth in this study with other modern and prehistoric material.....	124
Table 3.7 Dimensions of the upper and lower teeth attributed to bear in this study	130
Table 3.8 Comparative measurements of well-preserved bear teeth in this study with other modern and prehistoric material.....	141
Table 3.9 Comparative measurements of well-preserved civet tooth in this study with other modern and prehistoric material measurements.....	154
Table 3.10 Dimensions of the upper and lower teeth attributed to Canids in this study.....	159
Table 3.11 Comparative measurements of well-preserved Canidae teeth in this study with other modern and prehistoric material.....	162
Table 3.12 Comparative measurements of well-preserved tiger tooth in this study with other modern and prehistoric material.....	169
Table 3.13 Comparative measurements of well-preserved tapir tooth in this study with other modern material.....	175
Table 3.14 Dimensions of the upper and lower teeth attributed to rhinoceros in this study.....	179
Table 3.15 Comparative measurements of well-preserved rhinoceros teeth in this study with other modern and prehistoric materials.....	186
Table 3.16 Comparative measurements of incomplete teeth (anterior part only), identified as <i>Rhinoceros</i> / <i>Dicerorhinus</i> sp. indet. in this study with other prehistoric materials.....	192
Table 3.17 Comparative measurements of the isolated teeth of <i>Sus</i> cf. <i>barbatus</i> in this study with other <i>Sus scrofa</i> and <i>Sus barbatus</i> materials .....	197

	<b>Pages</b>
Table 3.18 Dimensions of the upper and lower teeth attributed to Suidae in this study.....	198
Table 3.19 Comparative measurements of the third lower molars of <i>Sus scrofa</i> and <i>Sus barbatus</i> in modern and prehistoric samples.....	227
Table 3.20 Comparative values of the permanent of lower canine ratio for <i>Sus scrofa</i> , <i>Sus barbatus</i> , and <i>Sus cf. barbatus</i> .....	230
Table 3.21 Dimensions of the upper and lower teeth attributed to <i>Muntiacus muntjak</i> in this study.....	236
Table 3.22 Comparative measurements of well-preserved <i>Muntiacus muntjak</i> teeth in this study with other modern and prehistoric material.....	241
Table 3.23 Dimensions of the upper and lower teeth attributed to <i>Rusa unicolor</i> in this study.....	245
Table 3.24 Comparative measurements of well-preserved <i>Rusa unicolor</i> teeth recovered on the present study with other modern and prehistoric material measurements.....	250
Table 3.25 Dimensions of the upper and lower teeth attributed to Bovinae in this study.....	254
Table 3.26 Comparative measurements of well-preserved Bovinae teeth in this study with other modern and prehistoric material.....	267
Table 3.27 Comparative measurements of the metacarpus and metatarsus bones in this study with other modern and prehistoric material.....	272
Table 3.28 Dimensions of the upper and lower teeth attributed to <i>Capricornis sumatraensis</i> in this study.....	277
Table 3.29 Comparative measurements of well-preserved <i>Capricornis sumatraensis</i> teeth in this study with other modern and prehistoric material.....	282
Table 4.1 Microvertebrate fossils recovered by acid digestion.....	290
Table 4.2 Microvertebrate fossils recovered by washing without acid digestion...	299
Table 5.1 Measurements of mandible and lower dentition of Naga Mas fossil.....	315
Table 5.2 Measurements of the skull of Naga Mas fossil.....	315
Table 5.3 Measurements of the left scapula and right humerus of Naga Mas fossil.	317
Table 5.4 Measurements of the left (humerus, tibia, and ulna) of Naga Mas fossil...	320
Table 6.1 Fauna list of vertebrate fossil teeth recovered from Batu Caves and Lenggong Valley sites in Peninsular Malaysia.....	331
Table 6.2 Faunal lists of Late Middle Pleistocene mammals fossil.....	343
Table 6.3 Faunal lists of Late Pleistocene mammals fossil.....	352
