

Acknowledgement

I would like to convey my deepest appreciation to my supervisors, Assoc. Prof. Dr. Misni Misran and Assoc. Prof. Dr. Lo Kong Mun for their assistance. I would also like to thanks Prof. Dr. Chuah Cheng Hock for his guidance in some parts of my work.

In addition, I would also like to express my sincere appreciation to Prof. Dr. Happipah Mohd Ali, Prof. Dr. Ng Seik Weng and Prof. Dr. Ward Robinson for providing some starting material and for solving the structures of the complexes.

Many thanks also go to Mr. Azizul Isha, Miss Norzalida Zakaria, and Mrs. Nisrin Norannis for performing X-ray data collection, NMR, and IR spectra recording.

Thanks in advance for the grant and fellowship awarded to me by the University of Malaya.

I should submit my appreciation to heads of the department of chemistry during my Ph.D. program: Prof. Dr. Mohd Radzi Bin Abbas, Assoc. Prof. Dr. Sharifuddin Md. Zain, and Prof. Dr. Zanariah Abdullah for their valuable supports.

Last but not least, appreciation is for all my lab-mates and friends especially Miss Tan for her effective helps during my study.
