

List of Tables

Table	Page
Table 1.1: Global mercury emission by natural sources to the atmosphere estimated for 2008.	4
Table 1.2: Global emission of total mercury from major anthropogenic sources to the atmosphere estimated for 2008.	6
Table 3.1: Chemical used for functionalization of MWCNTs and performance testing of functionalized MWCNTs.	54
Table 3.2: Equipment used for functionalization of MWCNTs and performance testing of functionalized MWCNTs.	54
Table 3.3: Parameters for functionalization process.	58
Table 3.4: Series of mercury aqueous solution.	63
Table 4.1: Total number of acidic functional groups and pK_a values for functionalized MWCNTs samples.	75
Table 4.2: The Raman shift (cm^{-1}) and the I_D/I_G ratio for functionalized MWCNTs samples.	93
Table 4.3: Textural properties of functionalized MWCNTs samples.	97
Table 4.4: Langmuir and Freundlich isotherm parameters for adsorption of mercury (II) ion onto pristine MWCNTs, B7 and B10 samples.	114
