

ACKNOWLEDGEMENT

First of all, I would like to mention how grateful I am to Allah S.W.T because with His entire blessing, I have finally completed my research dissertation. I am heartily thankful to my supervisor, Prof. Dr. Sharifah Bee Abd Hamid, whose encouragement, guidance and support enable me to develop an understanding of the subject. I would like to show my gratitude to my colleagues from Fritz Haber Institute (FHI), Germany for their support, guidance, training and cooperation through the completion of this project. I would like to thank Dr. Muralithran G. Kutty for his encouragement, helpful suggestion and correction in fulfilling the requirements for this project. The financial support (PPP Research Grant) of this work by University Malaya is gratefully acknowledged. I am thankful to COMBICAT Laboratory authorities for providing all instrumentation facilities. Thanks also to my beloved parent En. Asari @ Mansor B Abdullah and Pn Fatimah Bt Zakaria for their moral support. I would like to thank Perpustakaan, University of Malaya, for their cooperation by providing literature searches. Lastly, I offer my regards and blessings to all of those who supported me in any aspect during the completion of the project.
