

ACKNOWLEDGEMENT

In the name of Allah the most merciful and honorable.

First and foremost I would like to express my special thanks to both my supervisors, Professor Datin Dr. Hjh. Aishah Salleh and Dr. Pozi Milow, for their guidance, patience and supportive critics throughout my research and writing periods.

My sincere gratitude and appreciation to Sime Darby Plantation Academy for giving me chance to carry out my 12 months phytoplankton sampling in your plantation. Not forgotten, thank you again for providing me with all the information on the plantation and for giving me space in your MRC's Laboratory.

Here, I would also like to extent my gratitude to University of Malaya for the research fund through IPPP (PS289-2010B) and also to University Malaysia Terengganu for approving my study leave.

My cordial appreciation to all my lab members for all your help, especially to Yana and Aishah, thanks for not making me went sampling alone. To all friends, I will always remember all of you and all the memories will remain intact in my mind. Again, thank you very much. Not forgotten, thanks to Huda (my colleague), you helped me a lot with the statistic.

Finally, I would like to express my heartfelt regards to my parents (mak and abah), my siblings (Klong, Bglang, Ina, Yamok, A.Wi n Yush) and finally my dearest husband (Azrul Shah) and our little bundle of joy, Aisha Nur Nasuha, whom without, this thesis would not be possible.
