

LIST OF TABLES

TABLES	PAGE
4.1 : List of species recorded at research area with scientific names, family, order and division.	33
4.2 : Spatial occurrence of phytoplankton at ST1, ST2 and ST3 with relative density (RD) and relative frequency (RF).	80
4.3 : Comparison of cells abundance, species richness, H' and E among communities.	82
4.4 : Similarities in phytoplankton community determined by Modified Morisita's Similarity.	83
4.5 : Rainfall and weather conditions of study site during sampling period	144
