

## List of Appendices:

Appendix I: Proton Nuclear Magnetic Resonance ( $^1\text{H}$ NMR) of bis-(2-ethylhexyl)ammonium tosylate spectra .....	79
Appendix II: A close up Proton Nuclear Magnetic Resonance ( $^1\text{H}$ NMR) of bis-(2-ethylhexyl)ammonium tosylate spectra, peak at $\delta$ 0.7485 .....	80
Appendix III: A close up Proton Nuclear Magnetic Resonance ( $^1\text{H}$ NMR) of bis-(2-ethylhexyl)ammonium tosylate spectra, peak at $\delta$ 1.2212 .....	81
Appendix IV: A close up Proton Nuclear Magnetic Resonance ( $^1\text{H}$ NMR) of bis-(2-ethylhexyl)ammonium tosylate spectra, peaks at $\delta$ 7.0828, $\delta$ 7.6710 and $\delta$ 8.1620 .....	82
Appendix V: Proton Nuclear Magnetic Resonance ( $^1\text{H}$ NMR) of tris-(2-ethylhexyl)ammonium tosylate spectra .....	83
Appendix VI: A close up Proton Nuclear Magnetic Resonance ( $^1\text{H}$ NMR) of tris-(2-ethylhexyl)ammonium tosylate spectra, peak at $\delta$ 0.8080 .....	84
Appendix VII: A close up Proton Nuclear Magnetic Resonance ( $^1\text{H}$ NMR) of tris-(2-ethylhexyl)ammonium tosylate spectra, peak at $\delta$ 1.2258 .....	85
Appendix VIII: A close up Proton Nuclear Magnetic Resonance ( $^1\text{H}$ NMR) of tris-(2-ethylhexyl)ammonium tosylate spectra, peaks at $\delta$ 7.0645, $\delta$ 7.7038 and $\delta$ 9.3147 .....	86
Appendix IX: Electrospray mass spectra of cation, bis-(2-ethylhexyl)ammonium for BEHA tosylate protic ionic liquid .....	87
Appendix X: Electrospray mass spectra of anion, tosylate for BEHA tosylate protic ionic liquid .....	88
Appendix XI: Electrospray mass spectra of cation, tris-(2-ethylhexyl)ammonium for TEHA tosylate protic ionic liquid .....	89
Appendix XII: Electrospray mass spectra of anion, tosylate for TEHA tosylate protic ionic liquid .....	90
Appendix XIII: Calculation details and values in determining per proton value for $^1\text{H}$ NMR integration .....	91
Appendix XIV: Proton Nuclear Magnetic Resonance ( $^1\text{H}$ NMR) of BEHA tosylate/ water/ isopropanol (phase separated) spectra .....	92
Appendix XV: Proton Nuclear Magnetic Resonance ( $^1\text{H}$ NMR) of BEHA tosylate/ water/ isopropanol (phase miscibility) spectra .....	93

Appendix XVI: Proton Nuclear Magnetic Resonance ( $^1\text{H}$ NMR) of BEHA tosylate/ water/ isopropanol (aqueous rich phase) spectra .....	94
Appendix XVII: Proton Nuclear Magnetic Resonance ( $^1\text{H}$ NMR) of BEHA tosylate/ water/ isopropanol (organic rich phase) spectra .....	95
Appendix XVIII: Proton Nuclear Magnetic Resonance ( $^1\text{H}$ NMR) of BEHA tosylate/ isopropanol spectra .....	96
Appendix XIX: Proton Nuclear Magnetic Resonance ( $^1\text{H}$ NMR) of BEHA / isopropanol spectra / trace of water .....	97
Appendix XXI: Proton Nuclear Magnetic Resonance ( $^1\text{H}$ NMR) of TEHA tosylate / water / isopropanol (phase separated) spectra .....	98
Appendix XXII: Proton Nuclear Magnetic Resonance ( $^1\text{H}$ NMR) of TEHA tosylate/ water/ isopropanol (phase separated) spectra .....	99
Appendix XXIII: Proton Nuclear Magnetic Resonance ( $^1\text{H}$ NMR) of TEHA tosylate/ water/ isopropanol (aqueous rich phase) spectra .....	100
Appendix XXIV: Proton Nuclear Magnetic Resonance ( $^1\text{H}$ NMR) of TEHA tosylate/ water/ isopropanol (organic rich phase) spectra .....	101
Appendix XXV: Proton Nuclear Magnetic Resonance ( $^1\text{H}$ NMR) of TEHA tosylate/ isopropanol spectra.....	102
Appendix XXVI: Proton Nuclear Magnetic Resonance ( $^1\text{H}$ NMR) of TEHA tosylate/ isopropanol spectra/ trace of water.....	103
