Table 4.1	: Summary of data taken using Echelle spectrograph	31
Table 5.1	: List of data of δ -Sco and profile measurements of H_α from 2007 to 2010	53
Table 5.2	: List of Echelle data of δ -Sco and spectral profiles of H_β (above) and H_γ (below)	55
Table 5.3	: List of data used of δ -Sco and <i>HeI</i> λ 6678 line profiles from Feb 2007 to Oct. 2010	76
Table 5.4	: <i>EW</i> and <i>FWHM</i> of <i>HeI</i> λ 4388, 4471, 4921, <i>MgII</i> λ 4481, and <i>HeII</i> λ 4686	89
Table 5.5	: Variations of line profile parameters of H_α and H_β in conjunction with the 2011 periastron passage	104
Table 5.6	: <i>HeII</i> λ 4686 profile parameters of the 2011 periastron passage	105
Table 6.1	: Evolutionary phases of δ -Sco at various sets of parameters with the same number of timesteps at each evolution process	119
Table 6.2	: Theoretical physical characteristic of δ -Sco generated from the evolution process	124
Table 6.3	: Physical properties generated from the evolution process	127
Table 7.1	: H_α line profiles' parameters that correspond to the profile in Figure 7.3	133
