<b>ORIGINAL LITERACY WORK DECLARATION</b>		
<b>ABSTRACT</b>	iii	
<b>ABSTRAK (MALAY TRANSLATION)</b>	iv	
<b>ACKNOWLEDGEMENT</b>	vi	
<b>TABLE OF CONTENTS</b>	vii	
<b>LIST OF FIGURES</b>	xii	
<b>LIST OF TABLES</b>	xiii	
<b>LIST OF SYMBOLS AND ABBREVIATIONS</b>	xvii	
<b>LIST OF APPENDICES</b>	xix	
<b>CHAPTER ONE: RESEARCH OVERVIEW</b>		
1.1	Introduction	1
1.2	Background of Study	1
	1.2.1 The Need to Study Sustainability in Building Project	6
	1.2.2 The Need to Study Sustainability Integration into the Project Planning Process	7
1.3	Statement of the Problem	8
1.4	Aim, Objectives and Research Questions	11
1.5	Research Methodology	11
1.6	Scope	14
1.7	Research Significance	15
1.8	The Thesis Structure	16
<b>CHAPTER TWO: SUSTAINABILITY IN BUILDING AND THE PROJECT PLANNING PROCESS</b>		
2.1	Introduction	20
2.2	The Concept of Sustainable Development and Sustainable Construction	21
	2.2.1 The Concept of Sustainable Development	21
	2.2.1.1 Sustainability Dimensions	23
	2.2.2 The Concept of Sustainable Construction	29
	2.2.3 Global Efforts Concerning Sustainability	31
	2.2.3.1 Agenda 21 (1992)	31
	2.2.3.2 The Rio Declaration on Environment and Development (1992)	32
	2.2.3.3 The United Nations Framework on Climate Change (1992) and its Kyoto Protocol (1997)	33
	2.2.3.4 The Millennium Declaration (2000)	34
	2.2.3.5 The Johannesburg Plan of Implementation (2002)	35
	2.2.3.6 Post-2015 Development Agenda	35
2.3	Sustainable Building Project	38

2.3.1	Sustainable Building versus Green Building	38
2.3.2	The Benefits of a Sustainable Building	41
2.3.2.1	Direct Benefits	42
2.3.2.2	Indirect Benefits	43
2.3.3	Current Sustainability Framework and Building Performance Assessment Systems (BPASs)	44
2.3.3.1	BREEAM (United Kingdom)	45
2.3.3.2	LEED (United States)	47
2.3.3.3	SBTool (Canada/International)	48
2.3.3.4	Green Star (Australia)	50
2.3.3.5	Green Mark (Singapore)	51
2.3.3.6	Green Building Index (Malaysia)	52
2.3.3.7	GRI Sustainability Reporting Framework	53
2.3.4	Review of the Sustainability Principles of Buildings	55
2.3.4.1	Environmental Sustainability Principles of Building	56
2.3.4.2	Economic Sustainability Principles of Building	62
2.3.4.3	Social Sustainability Principles of Building	64
2.3.4.4	Design and Innovation Principles of Sustainability in Building	68
2.4	Sustainability Practices in Project Management	71
2.4.1	Project	71
2.4.2	Project Management	72
2.4.3	Project Life Cycle	74
2.4.4	Project Planning Process	77
2.4.5	Sustainability Integration into the Project Planning Process	80
2.4.6	Review of the Sustainability Integration Strategies into the Project Planning Process	81
2.4.6.1	Sustainable Project Orientation	82
2.4.6.2	Integrated Project Team	83
2.4.6.3	Integrated Design Process	85
2.4.6.4	Regulations and Code Compliances	89
2.4.7	Successful Project Performance and Sustainability	93
2.4.7.1	Project Success and Sustainability	96
2.5	Summary	98

## **CHAPTER THREE: SUSTAINABILITY IN MALAYSIAN BUILDING PROJECTS**

3.1	Introduction	101
3.2	Construction Industry in Malaysia: The Path towards Sustainability	102
3.2.1	The Issues of Construction Industry and Sustainability Practices	103
3.2.1.1	Environmental Issues	103
3.2.1.2	Socio-economic Issues	106
3.2.1.3	Issues of Sustainability Practices in Malaysian Building Projects	107
3.2.2	The Malaysian Efforts Towards Sustainability in Building Project	109
3.2.2.1	Policies and Guidelines on Sustainability in Malaysia	112
3.2.2.2	The Government Incentives on Sustainable Building Projects	116
3.2.2.3	Other Commitments	121
3.2.3	Planning Process of Sustainable Building Project in Malaysia	124
3.2.4	Awards Winning Projects on Sustainability	128
3.3	Significant of Developing a Framework of Integrating Sustainability into the Project Planning Process	129
3.4	Preliminary Framework of Integrating Sustainability into the Project Planning Process	131
3.5	Summary	134

## **CHAPTER FOUR: RESEARCH METHODOLOGY**

4.1	Introduction	136
4.2	The Preliminary Research	138
4.2.1	The Theoretical Framework	138
4.2.2	The Research Design	140
4.2.2.1	The Research Problems	141
4.2.2.2	Methods of Data Collection	142
4.2.2.2.1	Pilot Study	142
4.2.2.2.2	Questionnaires Survey	145
4.2.2.2.3	Case Study	146
4.2.2.3	The Sampling Procedures for Questionnaires Survey	150
4.2.2.4	The Replication Logic for Case Study	153
4.3	Fieldwork	155
4.3.1	Distribution of Questionnaires	155
4.3.2	Case Study	156
4.4	Analysis of Results	157
4.4.1	Quantitative Analysis	157
4.4.2	Case Study and Qualitative Analysis	160
4.5	Framework Development	162
4.6	Summary	162

## **CHAPTER FIVE: RESEARCH FINDINGS: QUANTITATIVE ANALYSIS**

5.1	Introduction	165
5.2	Stakeholders' Background	166
5.2.1	Educational Qualification, Working Experiences and Career Development	167
5.3	Stakeholders' Views on Sustainability Integration into the Project Planning Process for Buildings	169
5.4	The Problems of Integrating Sustainability in Malaysian Building Project	172
5.4.1	No Clear Aspect Concerning Sustainability and the Integration Strategies in Building and the Project Planning Standards and Guidelines	172
5.4.2	Lack of Collaboration and Integration among the Project Team Members	173
5.4.3	Lack of Understanding on Sustainability Integration Process and the Technical Issues	175
5.4.4	Financial Constraints	175
5.4.5	Lack of Awareness and Knowledge	176
5.5	Stakeholders' Preferences on the Sustainability Principles of Building and the Strategies to Integrate the Principles into the Project Planning Process	178
5.5.1	Reliability Test: Cronbach's Alpha Measurement	179
5.5.2	Factor Analysis	182
5.5.2.1	PCA for Sustainability Principles of Buildings	183
5.5.2.1.1	Environmental Sustainability Principles of Building	184
5.5.2.1.2	Economic Sustainability Principles of Building	187
5.5.2.1.3	Social Sustainability Principles of Building	189
5.5.2.1.4	Design and Innovation Principles of Sustainability in Building	192
5.5.2.2	PCA for the Strategies to Integrate Sustainability Principles into the Project Planning Process	194
5.5.2.2.1	Sustainable Orientation Project	194
5.5.2.2.2	Integrated Project Team	195
5.5.2.2.3	Integrated Design Process	198
5.5.2.2.4	Regulations and Code Compliances	201
5.5.3	Descriptive Statistics	202
5.5.3.1	Descriptive Statistics for Sustainability Principles of Buildings	203
5.5.3.2	Descriptive Statistics for the Strategies to Integrate Sustainability Principles into the Project Planning Process	206
5.5.4	Triangulation Measures of Preferences and Developing Framework of Integrating Sustainability into the Project Planning Process (Stage 1)	210
5.5.5	Relative Important Index (RII) and Developing Framework of Integrating Sustainability into the Project Planning Process (Stage 2)	214

5.5.5.1	RII for Sustainability Principles of Buildings	215
5.5.5.2	RII for the Strategies to Integrate Sustainability Principles into the Project Planning Process	216
5.6	Summary	219
<b>CHAPTER SIX: RESEARCH FINDINGS: CROSS CASE ANALYSIS</b>		
6.1	Introduction	220
6.2	Stakeholders Involvement	221
6.3	Sustainability Practices	225
6.3.1	The Projects Goals	225
6.3.2	Integration of Sustainability Principles into the Projects Planning Process	226
6.3.3	The Projects Strategies to achieve the Goals for Sustainability	232
6.3.4	The Practiced Strategies of Sustainability Integration into the Projects Planning Process	237
6.4	The Projects Performances	241
6.5	Barriers to the Projects	245
6.6	Preferences on Sustainability Principles of Building and the Strategies to Integrate the Principles into the Project Planning Process	246
6.7	The Framework Development	250
6.8	Summary	253
<b>CHAPTER SEVEN: CONCLUSIONS AND RECOMMENDATIONS</b>		
7.1	Introduction	256
7.2	Summary of The Research	256
7.3	Main Findings	267
7.3.1	Current Malaysian Stakeholders' Awareness, Knowledge and Commitment towards Sustainability in Building Project	267
7.3.2	Stakeholders' Involvement	268
7.3.3	Documentation and Implementation	268
7.3.4	The Project Sustainability Goals	269
7.3.5	Framework Recommendations	269
7.4	Limitation of the Study	271
7.5	Future Research	272
	References	273
	List of Publications and Paper Presented	308
	Appendices	310
