BIBLIOGRAPHY

Author	Title of Book
25. Federation of Malaya	1957 Census of Population of the Federation of Malaya.
26. Federation of Malaya	Notes on a Meeting held on 12th January, 1957, at Kuala Trengganu Rest House to Determine the Set up of the Fishermen's Cooperative Societies in the East Coast.
27.	Confidential files concerning the Kuala Linggi Scheme and the Telok Gedong Scheme.

In addition to the above readings, I had many interesting discussions with many Government Officers on topics concerning this exercise in Kuala Lumpur and Penang. All of them are either connected with the cooperative movement or the fishing industry. In Kuala Lumpur, Che Samad, Che Khalid and Che Laidin, Cooperative Officers at the Cooperative Division, Ministry of Agriculture and Cooperatives, who had been working in the East Coast fishing schemes for a few years previously gave me much help more the credit and marketing practices in the fishing economy in the East Coast from their wide experience.

Mr. Low Wan Kin of the Planning and Research Branch, Fisheries Division, Ministry of Agriculture and Cooperatives, gave me some information concerning the Kuala Linggi and the Telok Gedong projects.

In Penang, I had many discussions with Che Ibrahim, Cooperative Officer at the Cooperative Department, Che Laitiff, Fisheries Assistant at the Fisheries Department, North-west region, and Che Selvarajah, Research Officer at the Glugor Research Centre on topics relating to credit, marketing and the cooperative movement.

In addition to the help given to me by these Government Officers, I undertook a fieldwork for the Exercise. I travelled to the Tanjong Bungah, Batu Ferrengghi and Telok Bahang fishing villages in Penang Island to observe the activities of the fishermen and to talk to them. In all, I interviewed about 25 fishermen.
